JOSEPH HARRIS CO., INC.
MORETON FARM • ROCHESTER, N. Y.

Please note our new mail address
MORETON FARM, ROCHESTER, N. Y.

We have not moved, and are located where we have always been on Moreton Farm at Coldwater, about 5 miles west of Rochester; but in order to give quicker, more efficient service last year we changed our Post Office from Coldwater to **Rochester, N. Y.**

This change has saved time both on our incoming and outgoing mail, thus giving our customers even better service than we were able to heretofore.

During this change mail addressed to either Coldwater or Rochester will reach us thru the Rochester postoffice with equal quickness.

DELIVERY OF SEEDS

All vegetable and flower seeds in this price list except **Peas, Beans, and Sweet Corn** will be sent prepaid by parcel post, express or freight **at our option.**

Peas, Beans, and Sweet Corn will not be sent prepaid unless they are included in any one order **to the value of \$20.00 or more.**

The above offer to pay transportation does not apply to Field and Grass seed, Potatoes, Onion Sets, Fertilizers, etc. Articles other than seeds listed in this catalogue are sent at **purchaser's expense** except where they are quoted "**Transportation paid.**"

Seeds ordered sent by express will be so sent at the purchaser's expense.

About Ordering, Shipping, Etc.

Orders may be sent at any time and goods will be shipped at the time specified on the order.

Freight shipments are now handled by the railroads much more promptly than formerly and we advise having all heavy shipments (100 lbs. or more) sent in that way.

When ordering seeds shipped by freight or express please **be sure to give the name of your nearest freight railroad station or express office if it is different from your post office address.**

25% of the value of the order must accompany all orders for goods shipped C. O. D. Plants will not be sent C. O. D.

Terms and Discounts

Our regular terms are **cash with order.** When cash is sent with order we allow a discount of 5% on vegetable and flower seeds and plants, small fruits and accessories.

Field and Grass Seeds are strictly net cash with order at prices quoted.

To **Market Gardeners** of established credit and those who furnish us with satisfactory references we allow the following **time payments except on field and grass seeds, which are strictly cash with order.**

Bills for seeds, plants, etc., shipped after December 1st are due and payable **net August 1st.**

Bills for goods shipped after August 1 are due **net December 1st.**

To **Florists** of established credit and those who furnish us with satisfactory references we allow the following **time payments except in field and grass seed.**

Bills for seeds, plants, etc. shipped after December 1st are due and payable **net June 1st.**

Bills for goods shipped after June 1st, are due **net December 1st.**

Conditions of Sale

No **seeds** are sold by us that we do not **know** are of good vitality and will grow under normal conditions. They are all tested and the per cent that germinates is marked on the package or label.

We assume responsibility of the seeds, plants and bulbs reaching the purchaser in good condition. However, in common with all responsible seedsmen, we give no warranty, express or implied as to description, quality, productiveness or any other matter of any seeds, plants or bulbs we send out, and we will not be in any way responsible for the crop. We will not accept or fill orders under any other conditions.

Moreton Farm, Rochester, N. Y., Dec. 1, 1940

JOSEPH HARRIS COMPANY, INC.

Our General Retail Catalogue

Our general retail catalogue is issued in January. It contains more complete descriptions of the varieties listed here. Also a full line of garden accessories, fertilizers, insecticides, etc.

Your copy will be mailed to you as soon as issued. If you do not receive it, let us know. We will gladly send copies to your friends on request.

HARRIS SEEDS

1941-Wholesale Price List for Market Gardeners and Florists

"We received the first prize for our "Market Garden" display at the Windson Fair, Kennebec County again in 1939.

I think your seeds are the best we have ever used. We have had wonderful results.

Besides the stand at the Farm we do a retail business daily in the city of Augusta and Waterville; also at the stores and hotels. The Augusta House considers our vegetables the best they have ever used. We believe this is due in part to your high grade seeds.

We had a very good crop of Blue Hubbard Squash, all good size and shape."
Jan. 24, 1940.

Mrs. Myrtle French, Vassalboro, Me.

1941 will undoubtedly be a good year for market gardeners. With the increased employment of factory workers, due to defense orders, there will be more money to spend for food. This condition always brings a corresponding increase in the demand for fresh vegetables and prices will be better. Growers who take advantage of this situation and have high quality produce to sell will without doubt have a prosperous year.

There is a decided shortage of good vegetable seeds this year. Much seed of inferior quality or low germination will be offered but you can depend on getting good seed when you buy Harris' Seeds. We will not handle poor seed under any conditions. Our stocks of most varieties are sufficient to take care of our customers, but if we are sold out, you will get your money back.

We urge you to plan your crops carefully and order your 1941 seeds as soon as possible.

ORDER BY MAIL

It is so easy and you can be assured that when you send us your order you do not have to wait for your seeds. During the shipping season, orders are shipped out promptly on arrival. Fast mail, express and freight service will get them to you quickly and in good order.

EVERY LOT OF SEED IS TESTED!

The germination is plainly marked on every package of seed we sell. Use this guide when sowing to get good stands.

PLEASE NOTE: *We do not sell to Dealers.* The prices quoted in this list apply only to orders from market gardeners, florists and institutions who use seed in considerable quantities. *All prices here quoted are subject to change without notice and to our stocks being unsold.*

For prices of seed in quantities less than listed here, please refer to our general catalogue.

We will be pleased to quote special prices to anyone buying larger quantities of any one variety than we list here. Please write.

*Spargel (Ger.)***ASPARAGUS***Sparagio (It.)***Mary Washington—Large, early and "rust resistant"**

The best of the "rust resistant" varieties. Originated by the United States Department of Agriculture at Washington. Our seed is the true strain and will produce the finest large stalks. Oz. 20c; $\frac{1}{4}$ lb. 55c; 1 lb. \$1.75; 10 lbs. \$15.00.

*Artichoke (Ger.)***ARTICHOKE***Carciofo (It.)*

LARGE GREEN GLOBE. The Standard Variety. Produces the flower buds which are used for food the second year after sowing the seed. The plants are not hardy and require protection in winter north of Virginia. Oz. 50c; $\frac{1}{4}$ lb. \$1.50; lb. \$5.00.

*Salat-Ruebe (Ger.)***BEETS***Barbabetole (It.)*

$\frac{1}{4}$ lb. of seed will sow about 250 ft. of row. Sow 10 lbs. of seed to the acre for rows 14 in. apart; 6 to 8 lbs. per acre for rows 18 in. apart.

Harris' Special Crosby's Egyptian Beets

**Harris' Special
Crosby's Egyptian**

Finest Beet For Early Bunching

Harris' Crosby is very early, producing handsome dark red beets with small tap roots and with a smoothness and uniform shape which make them invariably the finest looking beets in the market. This beet makes a good top and it is without question the best early bunching beet obtainable.

We are proud of our stock of this grand beet. It is backed by over thirty years of careful breeding here on our own farm and is as we have said many times, "Every one a model for shape and color." See prices below.

	$\frac{1}{4}$ lb.	1 lb.	10 lb.	100 lb.
CROSBY'S EGYPTIAN. Harris' Special Strain. See above.....	\$.30	\$.90	\$8.50	\$75.00
CROSBY'S EGYPTIAN. Bright Red Strain.25	.85	7.75	70.00
Color lighter red than Harris' Strain. Popular in some markets.				
DETROIT DARK RED. Harris' Special Strain. See below.....	.25	.85	7.75	70.00
Early Blood Turnip.25	.70	6.50	60.00
A good old variety. Large, somewhat flattened beets. An early cropper.				
EARLY WONDER. A Superior Strain for Bunching.30	.90	8.50	75.00
Quite similar to our special strain of Crosby's Egyptian. Early and of good deep red color. Our strain of this variety is exceptionally fine.				
LONG SEASON. Called "Winter Keeper" and "New Century" ..	.45	1.40	13.50	125.00
A very late variety of extra fine quality. Description in Retail Catalogue.				
LONG SMOOTH BLOOD RED. (True Strain)25	.75	7.00	65.00
8 to 10 inches long and very dark red. Grows half out of the ground.				
Beets for Greens. (Green Top)15	.45	4.00	35.00
A distinct, rapid growing variety, selected to produce fine tops quickly.				

**Harris' Special
Detroit Dark Red
Famous For Fine Color**

This is the best beet for late summer and fall trade. No better strain can be obtained. Through many years of careful breeding and selection we have produced a beet that is not only of excellent globe shape but has a superb deep red color which is without equal. This is a large topped strain, making these beets particularly fine for late summer and fall bunching. There is no beet quite so satisfactory in all respects as Harris' Special Detroit.

Our stock is well liked by canners. We know canners who insist on Detroit beets grown from our seed in preference to all others.

Our seed crops of this beet this year have produced fine seed of high germination.

See prices above.

Harris' Detroit Dark Red Beets

Irwin Wickham of Stanley, N. Y. and Joe Harris both seem pleased with Mr. Wickham's crop.

Mangels and Sugar Beets—See page 20.

Bohnen (Ger.)

BEANS

Fagioli (It.)

One pound of beans will plant 150 ft. of row. 60 to 75 lbs. per acre.

At the prices here quoted, beans are not prepaid. Purchaser pays transportation on beans, except as follows: *If your order for vegetable seed including beans amounts to \$20.00 or more we prepay freight charges. (See also inside front cover.)

Our beans are grown from clean, true, high yielding stocks which are carefully rogued in the fields and hand picked. Our first consideration is to supply our customers with the best beans obtainable. We have made our prices as low as possible for our high quality stock.

Plentiful Beans—Noted for heavy yield

Plentiful (New)

Large Attractive Pods—Heavy Yield

This new variety has met with great favor this past year, and in some large markets because of the attractive appearance and fine quality have brought a premium over other varieties. The pods are longer than Bountiful, which they resemble and mature a few days later. These green podded beans are stringless and fine quality. Black Seeded.

The vines are upright, robust and produce large crops. It is one of the heaviest yielders. Be sure to grow some Plentiful this year. See prices below.

Bountiful

The Most Profitable Green Bean to Grow

There is no better stock of Bountiful Beans obtainable than our special Northern Grown seed. It is grown from carefully selected high yielding foundation stocks in *disease free fields*. The pods are *early* and are handsome, light green, straight and flat and entirely stringless. See prices below.

TENDERGREEN

The Leading Round Pod Green Bean

If you want an early round podded green bean you will do well to grow Harris' Tendergreen. It is the best bean of this class, and is one of the largest selling varieties we have.

The pods are round, handsome and straight; entirely stringless and with tender rich meat. They are produced in great abundance on sturdy upright vines. See prices below.

"After using your seeds for over 25 years I honestly believe that you have the very finest on the market. You can use my name any time you wish." Harry M. Townsend, Palmer, Mass. May 11, 1940.

Dwarf Green-Podded Beans

25 lbs. or more of one variety of beans will be supplied at 100 lb. price. A bushel weighs 60 lbs.

	NOT PREPAID* (See above)				
	1 lb.	7½ lb.	15 lb.	100 lb.	500 lb.
BOUNTIFUL. Selected Stock. See above.....	\$.30	\$1.50	\$2.70	\$15.00	\$70.00
Black Valentine.30	1.50	2.70	15.00	70.00
A profitable market bean, produces large crops of long, round, straight, light green pods. Not stringless except when very young.					
Giant Stringless Green Pod.25	1.45	2.55	14.00	65.00
Slightly curved, round pods, stringless of excellent quality.					
PLENTIFUL. (New) See above.....	.30	1.65	3.00	17.00	80.00
STREAMLINER. (NEW) (Sold out)
STRINGLESS BLACK VALENTINE.30	1.50	2.70	15.00	70.00
One of the most prolific and earliest green beans. The pods are long, straight, nearly round when young and very attractive. One of the best market beans and a very profitable variety to grow.					
TENDERGREEN. Early Prolific. Round Pod. See above	.30	1.50	2.70	15.00	70.00

Horticultural Beans

FRENCH HORTICULTURAL. Special Stock. See page 4.	.30	1.90	3.45	20.00	95.00
French Horticultural.30	1.60	2.85	16.00	75.00
Not our own growing.					
Lowe's Champion.30	1.60	2.85	16.00
One of the Horticultural or Cranberry beans. Pods 4 in. long, flat, green, straight and entirely stringless.					
Ruby Dwarf Horticultural. Also called "Roman" Beans. .	.30	1.60	2.85	16.00	75.00
Used for shelling green. Pods light green splashed with deep red.					

DWARF GREEN PODDED BEANS continued on next page.

French Horticultural Beans

Gaetano D'Addio and Sons, of Hamden, Conn. sold over 100 bu. from this crop in 1940. Grown from $\frac{1}{2}$ bu. Harris' Special Stock.

If you want a flat wax or yellow bean, grow our strain of Sure Crop. It is fully equal to any and much superior to most stocks offered. Of vigorous healthy upright growth, producing enormous yields of long straight pods. One of the most popular and profitable wax beans to grow. See prices below.

Pencil Pod Black Wax

The Best Round Podded Wax Beans

This is the bean to grow if your trade wants a round pod wax variety. A carefully bred seed stock, which has been especially selected for vigor, high yield and true type. Growers in all sections have been greatly pleased with this stock. See prices below.

Dwarf Wax Varieties

25 lbs. or more of one variety of beans will be supplied at the 100 lb. price. A bushel weighs 60 lbs.

	NOT PREPAID* (See page 3)				
	1 lb.	7 $\frac{1}{2}$ lb.	15 lb.	100 lb.	500 lb.
PENCIL POD BLACK WAX. See above.....	\$.30	\$1.60	\$2.85	\$16.00	\$75.00
ROUND POD KIDNEY WAX or Brittle Wax.30	1.75	3.15	18.00
Pods 5 to 6 in. long, straight, round, clear yellow, stringless and medium early.					
STRINGLESS DAVIS WHITE WAX. White Seeded.30	1.60	2.85	16.00	75.00
Long straight, entirely stringless, flat yellow pods borne in great abundance on sturdy upright plants. Matures with Sure Crop.					
SURE CROP WAX. The Best Flat Wax Bean. See above.	.30	1.60	2.85	16.00	75.00
UNRIVALLED WAX. For Early Market.30	1.50	2.70	15.00	70.00
A heavy yielder of attractive narrow, flat, clear yellow pods of refined appearance. A few days earlier than Sure Crop.					
WEBBER WAX or "Wonder Wax." The Earliest Wax. ..	.30	1.60	2.85	16.00	75.00
Long, straight, flat stringless pods. Quite free from rust and a heavy bearer. Also called "Cracker Jack."					

LIMA BEANS

A pound of Dwarf Lima seed will plant 150 ft. of row. About 60 lbs. per acre.

Fordhook Bush Lima—The Most Profitable Dwarf Lima

Our stock of this fine bean has earned an outstanding reputation for high yield and quality among successful growers. The pods are uniformly large with choice thick green beans.

With this sure bearing stock, Lima Beans are a profitable crop to grow. See price below.

	NOT PREPAID* (See page 3)				
	1 lb.	7 $\frac{1}{2}$ lb.	15 lb.	100 lb.	500 lb.
Burpee's IMPROVED Bush Lima.	\$.30	\$1.75	\$3.15	\$18.00	\$85.00
Larger pods, thicker, deeper green beans than the old variety.					
FORDHOOK BUSH LIMA. Best for Market. See above.	.35	1.80	3.30	19.00	90.00
Henderson's Bush Lima.30	1.60	2.85	16.00	75.00
Small flat pods and beans, early and very prolific.					

IDEAL or Mammoth Podded Pole Lima Bean

This is the largest and best pole lima. Pods often eight inches long. Early and prolific. Not Prepaid.* 1 lb. 30c; 7 $\frac{1}{2}$ lbs. \$1.80; 15 lbs. \$3.30; 100 lbs. \$19.00; 500 lbs. \$90.00.

DWARF GREEN PODDED BEANS—Continued

French Horticultural

Harris' Special Stock

You can't go wrong on Harris' Special Stock of French Horticultural.

This is a pure line strain which we have increased from a single plant that we selected in 1928 and is outstanding for its uniform long pods, superb coloring and high yield.

When we say that no finer stock of this variety can be obtained, it is not boasting but a plain statement of fact that has been amply demonstrated. Particular growers find it superior to any stock sold, and fully equal to the finest of the jealously guarded "private stocks." See prices on page 3.

"Your French Horticultural Beans are the very best I have ever grown. I expect to supply a large company with them next summer." Harry L. Gaines, DeRuyter, N. Y., Feb. 16, 1940.

Sure Crop Wax

The Best Flat Wax Beans

BEANS—Continued

POLE BEANS

A pound of Pole Bean seed will plant 120 ft. of row or about 100 hills.

King Horticultural—Harris' Special Large Seeded Strain

This variety is superior to French Horticultural both for yield and disease resistance. The pods are only about an inch shorter and slightly wider than French Horticultural. They are very attractive, being heavily splashed with bright scarlet at the shell stage, straight and entirely stringless. When put on good, well drained land, they can be grown without any supports. When grown this way the pods are just as long and straight and they can be picked as easily as the dwarf kinds. This large seeded strain is of our own growing. See price below.

	NOT PREPAID* (See Page 3)			
	1 lb.	7½ lb.	15 lb.	100 lb.
Golden Cluster Wax.	\$.30	\$1.90	\$3.45	\$20.00
Long, broad, deep yellow pods of finest quality; beans white.				
KENTUCKY WONDER. (White Seed)—Heavy Yielding.30	1.75	3.15	18.00
This is the most uniform and prolific strain of Kentucky Wonder. Long slender pods. Has the added advantage of being white seeded.				
Kentucky Wonder. Also called "Old Homestead".30	1.50	2.70	15.00
Long, slender, green pods of fine quality. Early and very prolific.				
Kentucky Wonder Wax.30	1.65	3.00	17.00
Long, flat, yellow pods of fine quality. One of the best wax pole beans.				
KING HORTICULTURAL. Special Large Seeded Strain. See above30	1.90	3.45	20.00
SCOTIA. Fine for Roadside Markets.30	1.75	3.15	18.00
Extremely prolific, with long round slender green pods of the finest quality. Has proved very profitable as a high quality bean for discriminating trade.				

FIELD BEANS *Sow about 60 lbs. per acre.*

BOSTON MARROW or White Marrowfat. Perry Strain.	\$.25	\$1.35	\$2.40	\$13.00
RED KIDNEY30	1.60	2.85	16.00
Robust Pea Beans. Mosaic Resistant.25	1.10	1.60	7.00
White Kidney30	1.65	3.00	17.00

BRUSSELS SPROUTS

Rosenkohl (Ger.) Cavolo di Brussels (It.)

1 oz. of seed will produce about 3000 plants.

There is always a good market for first class sprouts, and they are surprisingly easy to grow. The thing to do is to grow the right kinds. We have them.

Catskill

Among the expert growers of Brussels Sprouts in the Catskill Mountain region where some of the finest Sprouts in the country are produced, Mr. Arthur White of Arkport, N. Y., is considered to have the best strain. We were fortunate in obtaining our foundation plants two years ago direct from Mr. White and have grown a crop of seed this summer. See prices below.

	Oz.	¼ lb.	1 lb.
CATSKILL. The Best.			
See above. . . ¼ oz. 90c	\$3.00	\$10.00	\$35.00
LONG ISLAND IMPROVED.			
(Private Stock)	1.00	3.40	12.00
The best strain of this famous variety which can be obtained. Supply limited.			
Fancy Basket. (Tall)85	2.85	10.00
The earliest variety we know. Has produced excellent results in many sections.			

Catskill Brussels Sprouts
Mr. Arthur White and a typical plant in his 1940 crop.

Hot Water Treated Seed

We can supply hot water treated seed of Broccoli and Brussels Sprouts at no advance in cost. Hot water treated seed is usually a little lower in germination. We will supply untreated seed on all orders unless hot water treated seed is specifically requested.

BROCCOLI—True Italian Green Sprouting (Calabrese Strain)*1 oz. of seed will produce about 2000 plants.*

This is the true "Calabrese" strain and is the best stock which can be obtained. You can depend on this stock to produce compact center heads and an abundance of large side shoots.

Note: Where small center heads are wanted for bunching, it has been found practical to sow the seed in 2½ foot rows and thin the plants to 3 to 6 inches. This will produce an abundance of small heads. **Oz. 75¢; ¼ lb. \$2.35; 1 lb. \$8.00.**

Kraut (Ger.)**CABBAGE****Cavolo capucci (It.)***One ounce of seed will produce 1500 to 2000 plants in open ground or about 3000 in frames.***AGAIN**

All the Cabbage Seed we offer is

HOT WATER TREATED

This is a most important step in the control of Black-Leg.

Added work for us, but **Insurance for you!**

Golden Acre (Yellows Resistant)**True Golden Acre Type**

In addition to being resistant to "yellows" this stock is of the size and type of the true Golden Acre. It is but a few days later than our Golden Acre Special and should be grown by all who have "yellows." This is a very even stock which we know will give great satisfaction. See prices below.

Green Acre

Remarkable for the inherent green leaf color through the heads giving them a "freshly cut" appearance, even after much shipping, handling and trimming.

The heads resemble Golden Acre, but are a little larger, greener and mature a few days later. The plant is short stemmed and compact. This new cabbage has proved a most profitable kind. On disease free ground and where a slightly larger head is not objectionable this is an excellent variety to grow.

**Yellows Resistant Golden Acre**

"I have been one of your many satisfied customers for the past 12 years and I assure you it has been most gratifying to have done business with your Company.

Your seeds have always been as prolific as advertised, and the vegetables have always been most satisfactory.

I most heartily recommend the Joseph Harris Co. for its method of doing business and the unsurpassed product which it so honestly advertises."

Walter F. Crane, Cohasset, Mass. April 12, 1940

Marion Market**"Yellows Resistant Copenhagen Market"**

Great strides have been made with this stock, so it is now as uniform and true as any of this class. The heads resemble our regular Copenhagen Market in size and shape and are remarkably uniform. Should be used wherever there is any indication of "yellows" in your soil.

Early and Medium Early Varieties

	Oz.	¼ lb.	1 lb.
COPENHAGEN MARKET. True Large Headed Stock	\$.60	\$1.75	\$6.00
<i>Our strain is larger and more uniform than usual strains of this variety. Heads round, hard and have few outside leaves. Larger and about 10 days later than Golden Acre.</i>			
Early Jersey Wakefield. Early Pointed Heads45	1.20	4.00
<i>Our strain is particularly fine, the heads being very uniform and early.</i>			
ENKHIUZEN GLORY45	1.20	4.00
<i>A very large, medium early strain. Heads as large as the late kinds and mature much earlier. Has proved to be a most profitable variety for market and kraut.</i>			
GOLDEN ACRE. The Earliest Cabbage60	1.75	6.00
<i>A very even stock only a few days later than our Special Strain.</i>			
GOLDEN ACRE. Special Strain			(Crop failed)
GOLDEN ACRE. Yellows Resistant. (See above).....	.50	1.50	5.00
LARGE LATE COPENHAGEN. Best for Kraut45	1.20	4.00
<i>Enormous yielder. Two weeks later than Copenhagen Market. Can be cut for market or kraut. Remains hard without splitting a longer time than any other kind we have seen. Grows 10-12 in. in diameter.</i>			
MARION MARKET. Yellows Resistant. Copenhagen Type. (See above)...	.50	1.50	5.00
GREEN ACRE. (See above).....	.75	2.30	8.00
GLOBE. Yellows Resistant Glory50	1.50	5.00
<i>This is a fine uniform large heading stock of Enkhuizen Glory type. It should be used on all yellows infested soils.</i>			
RED ACRE. New Early Round Head. Sure Heading			(Crop failed)

Harris' Ballhead

Heavy Yielding Danish Cabbage

We have yet to see a strain of Danish cabbage that is superior to Harris' Ballhead. *It is the most consistently heavy yielder we know.* It is a very vigorous stock, producing uniform hard solid heads with great regularity. The heads are round (see photo to right), usually about 5 to 6 lbs. in weight, greener than most Danish, with a slight tinge of purple. Because of its attractive appearance Harris' Ballhead commands the best prices and often sells when the market is slow.

This is a very superior keeper for storage. If you want the best Danish, grow Harris' Ballhead. See prices below.

Joe Harris in one of our fields of Harris' Ballhead Cabbage

"Yellows" Resistant Cabbage

An increasing number of farms each year are showing "yellows sick" soil. Yellows resistant varieties are the only kinds to grow where ground is badly infected with yellows. In many sections where there is slight yellows, infection the ordinary varieties can be grown, but the resistant kinds usually do much better and produce large crops.

Late or Main Crop Varieties

	Oz.	¼ lb.	1 lb.
ALL SEASONS. Yellows Resistant	\$.45	\$1.20	\$4.00
Especially recommended for "Yellows sick" soil where the large semi-flat domestic type for kraut, etc., is wanted. Very highly resistant.			
BUGNER. Yellows Resistant50	1.50	5.00
Because it is yellows resistant, this old variety is becoming more in demand. It is later than Danish Ballhead, and has larger and more flattened heads. A very heavy producer.			
DANISH BALLHEAD. Intermediate. "Fine Keeper"45	1.20	4.00
Heads are deeper and not as flattened as the short stemmed. The color is deeper green and they keep very well in storage. A profitable type to raise.			
DANISH BALLHEAD. Short Stem. Heavy yielding strain45	1.20	4.00
This is a very fine strain producing large yields of uniform heads which are medium large, solid and of good color. An excellent variety for storage.			
HARRIS BALLHEAD. See above50	1.50	5.00
PENN STATE Ballhead. True Stock60	1.75	6.00
Short stemmed with very solid heads, which are somewhat flatter than most Danish types. This cabbage is noted for its large yield.			
Premium Flat Dutch35	1.10	3.50
SUPER CURLED SAVOY. The Best Variety60	1.75	6.00
Finest Market Gardeners Strain. Closely resembles Chieftan. Fine heads, more savoyed, earlier and more compact plants than most Savoy. This is the most uniform stock we have ever seen and is the type best liked by Long Island growers.			
SAVOY. Perfection Drumhead			
We have discontinued offering this stock as Super Curled is much superior in every way.			
WISCONSIN HOLLANDER. "Yellows" Resistant60	1.75	6.00
The best "yellows" resistant Danish type. Under normal conditions will produce fine crops on "yellows sick" soil where ordinary Danish cabbage will not survive.			
MAMMOTH ROCK RED. Sure Heading Strain50	1.50	5.00
The largest red cabbage. The heads are hard, medium round and deep red. This is the best late red kind for market or shipping.			

Chihli

Chihli—Chinese Cabbage

Much the Best Variety. This is the most popular kind and best for market and roadside stands. It has almost entirely replaced all other kinds. The heads are very attractive, often 18 in. long, uniform in shape and size, hard and firm. This variety is by far the best to grow. A profitable crop on sward.

Sow the seed in July or August, the crop matures in 8 to 10 weeks. 1 to 1½ lbs. will sow one acre.

Oz. 45c; ¼ lb. \$1.20; lb. \$4.00.

*Blumenkohl (Ger.)***CAULIFLOWER***Cavolfiore (It.)**One oz. of seed will produce 1500 to 2000 plants in open ground or about 3000 in frames.***Cauliflower Seed for 1941**

There is no doubt that the war has produced a distinct shortage of good stocks of cauliflower seed, and prices in many cases are higher than is reasonable and many inferior stocks will be offered this year.

We are very fortunate that we have enough seed of our own proven stocks to supply our customer's normal requirements and at reasonable prices. You do not have to pay exorbitant prices for your cauliflower seed as there is no better seed than ours to be obtained at any price.

While we have a reasonably good supply, we suggest that our customers order their seed early.

Note: We can supply hot water treated cauliflower seed of the varieties and quantities listed in this catalogue at no increase in price. Hot water treated seed is usually a little lower in germination. We will supply untreated seed unless treated seed is specifically requested.

Snowball Cauliflower Perfected Strain

*"No better seed can be bought
at any price"*

We are glad to assure our customers that we can supply their usual requirements of this fine strain which is recognized by leading growers in the East as the best cauliflower grown.

The heads are unusually deep and heavy, of uniformly good size, beautifully white with a tight attractive curd. See prices below.

Snowball Cauliflower

Snowdrift

Also Called White Mountain and Improved Holland Erfurt

In the same season as Snowball, producing large firm heads which are very white. This variety is popular in many sections and is sold under a variety of names. Ours is an extremely fine true stock. See prices below.

Early American Snowball—The Earliest Cauliflower

This variety which is grown in this country has produced the earliest heads in our trials over a period of several years. It is earlier than Super Snowball, and when cut for market the heads are just as large. The heads are large and attractive, deep, with a firm tight curd, the leaves cover well, making this altogether a first class variety. See prices below.

Early Purple Head—The Best Italian Purple Cauliflower

Without question this is the finest strain of Italian Purple Cauliflower. The plants produce tight, uniform, good size heads, fully two weeks earlier than other purple stocks. We have started to cut in late September from plants set in the field June 23d.

This stock will produce a larger percentage of true purple heads than any other stock we have ever seen. See prices below.

	¼ Oz.	Oz.	¼ lb.	lb.
Danish Giant Snowball or "Dry Weather"	\$1.00	\$3.25	\$11.50	\$40.00
Ten days or two weeks later than Snowball. Stands drought.				
DANISH GLORY (NEW) (Sold out)				
A deeper heading selection of Super Snowball.				
EARLY AMERICAN SNOWBALL. See above.	1.10	3.50	12.50	45.00
ERFURT EARLY DWARF. Also called CATSKILL SNOWBALL	1.00	3.25	11.50	40.00
Much like Snowball, but is later and has somewhat shorter stems. Ours is a true even stock and produces the finest heads.				
SNOWDRIFT. See above.	1.20	4.00	14.00	50.00
NEW EARLY PURPLE HEAD. Italian Purple. See above.90	3.00	10.00	35.00
SNOWBALL. Perfected Strain. See above.	1.20	4.00	14.00	50.00
SUPER SNOWBALL. Originator's Strain.	1.35	4.50	15.50	55.00

This is the same strain which has given our customers so much satisfaction in the past, and is without doubt the best grown. *Supply limited.*

Carroten (Ger.)

CARROTS

Carota (It.)

An ounce will sow about 300 feet of row. It requires 2 to 4 lbs. of seed for an acre, depending on how far the rows are apart.

Carrot Seed for 1941

There is a distinct shortage of carrot seed for 1941, and no doubt considerable amounts of seed of low germination and inferior breeding will be offered for sale. We are fortunate that we can assure our customers that we have sufficient stocks of carrot seed of our usual high quality to take care of their requirements.

Nantes
Carrot

Nantes—Coreless

This is the attractive *coreless* variety that is used so much for early bunching as well as a topped carrot on many markets. The carrots are six to seven inches long, unusually smooth, nearly the same size the entire length and stump rooted. They are *entirely coreless* and of finest quality. See prices below.

Imperator—Outstanding for Bunching

This is the fine bunch carrot from California which is found on Eastern markets. It grows just as well here and has become very popular for high class bunching trade. The carrots are often eight inches long, smooth, somewhat tapering and deep orange in color. The tops are just right for bunching. We offer the true stock. See prices below.

Supreme Half-Long—“A Red Cored Danvers”

This new carrot is really a more slender, refined, coreless strain of the Danvers type. The roots are good size, very attractive; of deep orange color and quite smooth. The carrots are a solid deep orange, with a small “red” core. The tops are not too large, making this a fine carrot both for bunching and busheling. See prices below.

Morse’s Bunching

Deep orange color, smooth, uniform appearance and good tops for tying make this a very popular bunching carrot in many sections. The carrots are eight inches long, slightly tapering with a stump root when fully mature. The deep orange color goes clear to the tip. See prices below.

Note: 25 lbs. or more of any one variety will be supplied at the 100 pound rate.

	¼ lb.	lb.	10 lb.	100 lb.
CHANTENAY. Special Strain—Long	\$.60	\$1.80	\$17.00	\$160.00
Grows about an inch longer than Red Cored and most other strains of Chantenay. It has proved the best stock of this variety we know.				
CHANTENAY. Red Cored60	1.85	17.50	165.00
Our customers have been well pleased with this stock. The fine quality of this carrot has made it rapidly replace the old style Chantenay both for market and canning. Our strain has been constantly improved and will be found to be practically 100% red cored.				
DANVERS HALF LONG. A Heavy Cropper50	1.50	14.00	125.00
We have a pure heavy yielding stock of this popular variety.				
HUTCHINSON. True New England Type90	3.00	29.00	275.00
Produces large roots 9 to 10 in. long, nearly the same size the whole length and stump-rooted. Color light orange. This carrot yields large crops and is used extensively as a topped carrot in the New England area and other large markets in the East. We have a very superior and dependable stock.				
IMPERATOR. Fine for Bunching. See above90	3.00	29.00	275.00
MORSE'S BUNCHING. (New) See above90	3.00	29.00	275.00
NANTES. Also called CORELESS. See above85	2.75	26.00	250.00
PERFECTION85	2.75	26.00	250.00
This carrot is similar to “Coreless” described above, but is longer, being 7 to 8 inches long. They are practically the same size the whole length and <i>coreless</i> . Fine for fall bunching or topped carrots in fall and early winter.				
SUPREME HALF LONG. (New) See above60	2.00	19.00	185.00
TENDERSWEET. The Sweetest Carrot70	2.25	21.00	200.00
This carrot is being grown more and more for market. The roots are large smooth and tapering, of striking deep orange red color. They are a good bunching carrot and are of very superior quality.				

*Bleich-Sellerie (Ger.)***CELERY***Sedano (It.)*

*An ounce of seed will produce about 8000 plants.
It requires 20,000 plants to the acre.*

Golden Plume or Wonderful*Original Strain*

This is our original type of Golden Plume which has proved so satisfactory to our customers. The stalks are very large with remarkably heavy hearts and with thick solid stems. Crops which pack 4 doz. to a standard $\frac{2}{3}$ crate are not at all uncommon.

Many of the best celery growers in the country get their seed of Golden Plume from us. They find that they can get best results without having to pay a fancy price for their seed. See prices below.

Supreme Golden (New)*An Improved Taller Golden Self Blanching*

Definitely taller than our regular Golden Self Blanching and a few days earlier. The stems are long to the first joint, broad and rather thick. The inner stems are long and the hearts exceptionally good. The whole plant is uniform and very erect making a very solid crate when packed. The stems blanch to a clear creamy white. This strain has shown considerable resistance to yellows, with some of our customers. See prices below.

Super Plume

This is slightly earlier, similar in appearance and height to our regular Golden Plume. The stems however, are thicker, average longer and are of better quality. Stems usually 8 to 9 inches long and are firm and crisp. Blanches quickly but stands up well and will produce heavy yields of the finest celery. See prices below.

Summer Pascal—New, Early Green Celery of Superior Quality.

Because of its earliness, fine quality and attractive appearance, this new celery has become very popular in New England. The plant is medium tall, very uniform with long, thick, rounded stalks. The stems blanch quickly and are of the finest quality. This is an early variety, ripening shortly after Easy Blanching. See prices below.

Yellow or "Self-Blanching" Varieties

	Oz.	$\frac{1}{4}$ lb.	lb.
GOLDEN PLUME or WONDERFUL. Original Strain. See above.....	\$.75	\$2.35	\$ 8.00
GOLDEN PLUME. New Tall Strain.75	2.35	8.00
Stems are longer to the first joint than the old strain. It is definitely a taller plant but not quite as large in diameter. Better suited for upland than muck.			
GOLDEN SELF-BLANCHING. "Old" Strain.75	2.35	8.00
This old standard variety continues to be a very profitable strain to grow for late celery. The stalks are large with large heavy hearts and tall enough to nicely fill a standard celery crate.			
MASTERPIECE (NEW). See above.....	$\frac{1}{4}$ oz. 50c	1.60	5.75
An early golden of Self-Blanching type. Tall with rounded thick stems of fine quality. Free from strings and tender. Heavy yielder. Excellent for muck.			
SUPREME GOLDEN (NEW). New tall type. See above.....	$\frac{1}{4}$ oz. 35c	1.00	3.40
SUPER PLUME (NEW). See above.....	$\frac{1}{4}$ oz. 35c	1.00	3.40

Green Varieties

EASY BLANCHING "Newark Market" or Sanford Superb.60	1.75	6.00
It has the same dwarf, compact habit of growth as Golden Self-Blanching (Old) blanches quickly, and is of fine quality. Leaves are green and the stalks blanch white.			
GIANT PASCAL. Special Strain. (Late)50	1.50	5.00
This strain of Giant Pascal is largely used in New England and is considered one of the very best for late winter market. The stalks are large, solid and blanch pure white.			
SALT LAKE or UTAH. The Favorite Green Celery. See below.....	.75	2.35	8.00
SUMMER PASCAL New—Early—Green. See above.....	$\frac{1}{4}$ oz. 40c	1.25	4.25

Salt Lake or Utah—The Favorite Green Celery

Salt Lake is the standard where a superior green kind is wanted for fall market and storage. Growers who have used our strain for ten years are very enthusiastic in its praise.

The plant grows to a good height with a well developed and heavy heart. The individual stalks are *very thick*, crisp, of high quality and blanch more quickly than other green varieties except Summer Pascal described above. They are firm, with practically no soft stalks. See prices above.

**Golden Plume - Original Strain**

CELERIAC—Turnip-Rooted or “Knob” Celery

LARGE SMOOTH PRAGUE. Best for Market.	Oz. \$.25	¼ lb. \$.75	lb. \$2.50
<i>This is the standard market garden variety.</i>			
DELICACY. Grow for fine quality.30	.90	3.00
<i>This variety produces medium size bulbs of superior quality.</i>			

Welschkorn (Ger.)

SWEET CORN

Mais (It.)

One pound of seed will plant 350 to 400 hills; 10 to 12 lbs. will plant an acre. A bushel weighs 48 lbs.

Harris’ Northern Grown Sweet Corn

For many years we have made a specialty of growing both open pollinated and hybrid sweet corn seed of the finest quality here in the North on our own and nearby farms, and are large producers of the best market varieties.

Combining scientific breeding and careful selection with the greatest care in growing, drying and cleaning, we produce seed corn of the highest standard of vitality and purity.

Hybrid Sweet Corn

The large number of Hybrids offered, make it difficult for the grower to select the best. We have chosen the best of these hybrids and offer to our customers six varieties which cover the season from extra early to late or main crop. In order of maturity they are—“Seneca 60,” North Star (new), Northern Cross, Early Bancross 39, Golden Cross Bantam and Ioana. These are grown from proven pure line parents with great care taken in detasseling the seed parent which is of major importance in growing hybrid corn seed.

Hybrid corn cannot be saved for seed the next year as it breaks down.

North Star

New Extra Early Hybrid (67 days)

As early as Extra Early Bantam and only a few days later than “Seneca 60” but having the same large ears that you ordinarily find in many midseason varieties. It sounds almost too good to be true but we have obtained just this by crossing one of our inbreds of Extra Early Bantam with Connecticut inbred C 13. Being a true hybrid it is very productive and even ripening. The ears are deep creamy gold, mostly 12 rowed, fully 7 inches long and have a fine large husk which covers the tip well and makes them very attractive looking.

The ears will sell at a premium on sight, and the fine quality will bring your customers back. We had people tell us this summer that North Star was of exceptionally fine flavor for early corn.

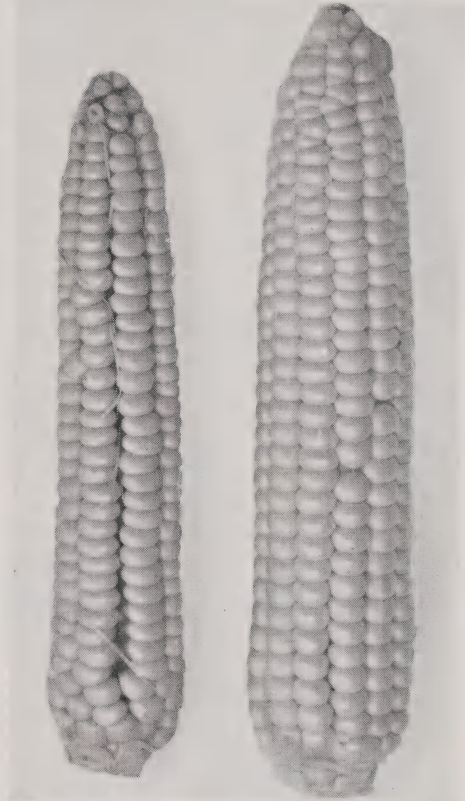

The stalks are strong, five feet or more high. Be sure to try some North Star this year.

NOTE: Our seed supply of this variety is limited this year, so we can not sell more than 25 lbs. to a customer. First come first served. Don’t miss this opportunity See prices on page 13.

Seneca “60”—The Earliest Hybrid (65 days)

This new corn is the earliest Hybrid in production and one of the earliest varieties. In our trials it has been ready in 65 days and *we have seen it mature under ideal conditions in sixty days.*

The stalks are 4 to 4½ feet tall, with eight rowed, golden yellow ears about 6 inches long, and ripening a large part of the crop over a short period of time. We recommend this extra early hybrid highly. Not resistant to Stewart’s Disease. See prices on page 13.

Seneca “60”

North Star

An ideal combination for extra early sweet corn.

When Different Varieties Mature

We give after the names of the different varieties listed in this catalogue the approximate number of days in which the corn matured in our trials that were planted about the middle of May. As the time required varies greatly according to the weather, time of planting, and fertility of the soil the figures should be regarded as relative rather than actual.

SWEET CORN continued on next page.

Early Bancross 39 (74 days)

Has proved a winner for growers who want a large uniform ear maturing before Golden Cross Bantam. They are practically the same size and shape and are ready fully *ten days earlier*.

The plant is rugged and prolific, with the majority of the plants producing two good ears. It is moderately resistant to Stewart's Disease (wilt), and has produced large early crops where other corn has failed entirely.

Our seed of this new hybrid has been produced under our careful supervision by a top cross of Purdue 39 on our *own* selected stock seed of Harris' Extra Early Bantam. This corn should be sown at the same rate as the open pollinated varieties. See prices on next page.

Northern Cross

An Early and Tremendous Yielding Hybrid (73 days)

This is a hybrid of great vigor, producing fine stands of strong sturdy plants which will produce great crops of large even ears. There are usually two and often three good ears to a plant. It is truly a tremendous yielder of fine large ears and is well suited to fill the gap between the extra early and later kinds.

These large ears are very uniform in size, usually fully eight inches long with 12-14 rows of bright yellow kernels and are very attractive in appearance and of exceptionally high quality.

They mature a few days before Whipple's Yellow and from 10 to 12 days earlier than Golden Cross Bantam.

Northern Cross is a product of our own breeding here in the North, being a cross between two of our own pure line inbreds and can be produced only by us. See prices on next page.

Caution: Northern Cross is not resistant to Stewart's Disease (wilt).

Ioana

Large Eared—Midseason—Wilt Resistant Hybrid (86 days)

The ears are large, slightly tapering, mostly 8 to 9 inches long with 12 to 14 rows (a few 16) of creamy yellow, medium deep kernels, which fill the ear well at the tip.

These large attractive ears are of fine quality being sweet and tender. The plant is tall and strong and is *resistant to Stewart's Disease (wilt)*.

Developed by Dr. E. S. Haber of Iowa State College, this outstanding new hybrid has been welcomed by sweet corn growers as an exceptionally fine large eared variety for main crop.

In some sections where large crops of sweet corn are grown for market, some of our customers prefer it even to Golden Cross Bantam. Be sure to grow some this year. See prices on next page.

Ioana

Golden Cross Bantam

Wilt Resistant—High Yielding—Uniformly Large Ears (84 days)

The demand for this corn has been so great that many inferior stocks are now being offered. Growers should be particularly careful to get their seed from reliable sources. You can depend on our stock. It is outstanding for uniformity and high yield. Every pound was grown here in Western New York from tested pure line parents and the seed rows were thoroughly detasseled.

This stock will produce large crops of beautiful ears of remarkably uniform length (about 8 in.) and mostly with 12 rows of bright golden yellow kernels. They mature about a week later than the old fashioned Golden Bantam with the whole crop ripening at nearly the same time.

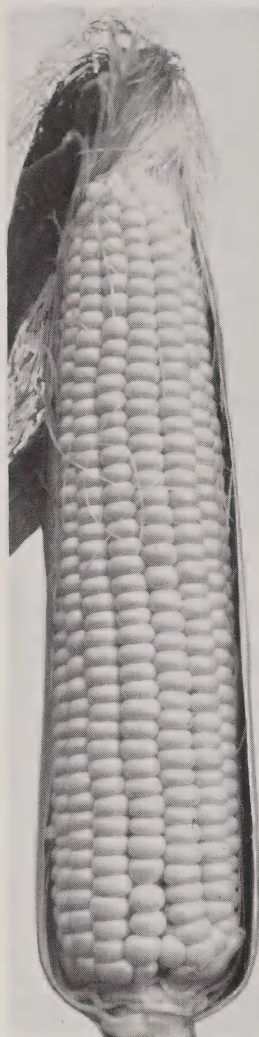

For best results sow not more than six pounds per acre.

See prices on next page.

Harris' Extra Early Bantam—Heavy Yielding Extra Early Sort (68 days)

Introduced by us in 1927; this has proved one of the most profitable varieties for the grower ever offered. In spite of the growing demand for larger ears in some markets, many growers find that because of the earliness, large yield and superior quality, Harris' Extra Early Bantam is still on their "*must grow*" list. It is not only an extremely heavy yielder but is one of the earliest varieties, maturing ears which can be sold at high prices before the market becomes flooded.

The ears resemble true Golden Bantam in size and shape and high quality but mature ten days earlier. They are up to 7 in. long with 8 to 10 rows of golden yellow kernels, very uniform in size and appearance and of fine quality. See prices on next page.

SWEET CORN—Continued

Whipple's Yellow

Harris' Original Northern Grown Strain. A Leader for 20 Years (77 days)

We are the *original* introducers of Whipple's Yellow Corn and since its introduction in 1920 we have constantly bred and selected it for earliness, uniformity of size and high yield.

We have seen many other stocks of Whipple's Yellow grown in comparison with our own, and without exception ours stands head and shoulders above all the rest. *You cannot afford to grow just an ordinary strain of this fine corn.*

Every pound of this variety which we sell is grown here in the North, on or near our own farm under our supervision from our own carefully bred stock seed. See prices below.

SWEET CORN—Yellow Varieties

Note: 25 lbs. or more of any one variety will be supplied at the 100 pound rate.

*At the prices here quoted, sweet corn is not prepaid. Purchaser pays transportation on sweet corn except as follows: If your order for vegetable seeds, including corn, amounts to \$20.00 or more we will prepay the FREIGHT charges. Write for special prices on larger lots than quoted here.

	NOT PREPAID*			
	1 lb.	6 lb.	12 lb.	100 lb.
BANTAM EVERGREEN. (86 days)	\$.25	\$1.15	\$2.05	\$14.00
One of the best late yellow corns. Ears large, better than most stocks grown. Straight rowed and fine quality.				
BUTTERCUP. Noted for Quality. (80 days)25	1.15	2.05	14.00
A larger, improved Golden Bantam. The long slender ears always command a premium on markets. A very superior stock of our own breeding.				
CANADA GOLD. Early Long Ears. (70 days)25	1.15	2.05	14.00
Only a few days later than Golden Early Market with ears 8 to 9 in. long with 8 to 12 rows of deep butter yellow kernels of fine quality. The plant is strong and sturdy often producing two good ears. This variety is well liked by many sweet corn growers.				
EARLY BANCROSS 39. New Early Hybrid. (74 days) See page 12	.35	1.95	3.70	28.00
GOLDEN BANTAM. True Strain (80 days)25	1.15	2.05	14.00

It requires about 2 lbs. per acre in hills or 3 to 4 lbs. drilled.

Harris'
Perfection
Cucumber

Harris' Perfection

The Grandest Long Green White Spine

If you want the finest long white spine cucumbers, grow Harris' Perfection.

The fruit is straight, smooth and handsome, deep green in color with small white rays at the blossom end, and retains its deep green color for a long time after picking. The cucumbers will average well over eight inches long when ready for market and are just the right thickness.

Since we introduced Harris' Perfection in 1916, we have kept the stock under our entire control, working constantly to improve the type, yield and uniformity. Even though there have been several very fine varieties of this type introduced in the past few years, many of our customers still prefer Harris' Perfection because it commands a premium over other kinds.

This variety is adapted for dill pickles as well as for general market. See prices below.

Straight Eight—A Very Prolific Long White Spine

Has become very popular among growers because of the large yield of fine straight cucumbers. When ready for market the cucumbers are 8 to 9 inches long, straight, smooth and somewhat blunt ended. The color is medium dark green with green rays at the blossom end. We can recommend Straight Eight for a money making crop. See prices below.

25 lbs. of any one variety will be supplied at 100 lb. rate.	Oz.	$\frac{1}{4}$ lb.	lb.	10 lb.	100 lb.

Grows 8 to 10 in. long and stays green a long time. We have a very fine strain.					

CUCUMBERS continued on next page.

CUCUMBERS—Continued

A & C

Long, Slender, Dark Green

This new cucumber has rapidly become very popular where a long dark green white spined kind is wanted.

The cucumbers are 8 to 9 inches long, well proportioned, smooth and dark green in color. They make a very fancy pack. The vines are strong and healthy producing large crops of the finest fruit.

We offer seed of our own growing of the true long strain. See prices on page 14.

A & C Cucumbers—Part of a seed crop on our farm.

Harris' Double Yield

Enormous Yields of the Finest Pickles

Since we introduced this variety a number of years ago it has become increasingly popular among growers because of the enormous yield of fine straight pickles. The young cucumbers are produced in clusters of three or four like the fingers of your hand.

The cucumbers are very straight with blunt ends, medium deep green in color and of the very best shape for small pickles. This is also the earliest variety we know, enabling growers to plant late and still get a large yield of fine fruit. See prices on page 14.

Double Yield Pickles

Irondequoit Hothouse—Greenhouse Grown Seed

This is the famous variety which has been developed by the greenhouse growers around Rochester. The seed has been saved for us from perfect fruit grown under glass by an expert cucumber grower in Irondequoit. It will produce remarkably fine uniform cucumbers. The fruit is long, slender, and deep green, almost entirely solid with very few seeds. The vines are vigorous and very prolific.

100 seeds 75c; 250 seeds \$1.75; 500 seeds \$3.25; 1000 seeds \$5.50.

WITLOOF CHICORY—French Endive

An ounce of seed will produce 3000 to 5000 roots.

WITLOOF CHICORY. Special Forcing Strain. An exceptionally fine strain, grown from especially selected fully developed forced heads. Will give a high percentage of perfect heads when forced. Oz. 60c; ¼ lb. \$1.75; lb. \$6.00.

COLLARDS

GEORGIA. Large cabbage-like leaves, which grow loosely on stems 2½-3 ft. tall. Does not form heads. May be sown in spring and transplanted like cabbage or drilled in June or July. Popular in the South for table use and stock feeding. Oz. 10c; ¼ lb. 30c; lb. 90c; 10 lbs. \$8.00.

Feld Salat (Ger.)

CORN SALAD or Fetticus

Valeriannt (It.)

LARGE ROUND-LEAVED. Market Gardener's Dark Green Strain. The leaves are uniformly large, and dark green. Yields large crops. Oz. 30c; ¼ lb. 90c; lb. \$3.00; 10 lb. \$29.00.

Garten-Kresse (Ger.)

CRESS

Agretto (It.)

EXTRA FINE CURLED—Also called Pepper Grass. True. Oz. 25c; ¼ lb. 75c; lb. \$2.50.

WATER CRESS. Improved Broad-leaved. This is a much better strain than the common Water Cress. Excellent also for forcing in greenhouses and frames. Oz. 75c.

Loewenzahn (Ger.)

DANDELION

Dente di leone (It.)

LARGE THICK LEAVED. Dark Green (Arlington Strain)..... \$.60 ¼ lb. \$1.85 lb. \$6.50 10 lbs. \$60.00

This strain is the thick leaf, dark green variety. Strong, upright growing plant, with good hearts.

ITALIAN DANDELION. Cicoria Catalogna..... .60 1.75 6.00

Large dark green dandelion like leaves, which are cut several times during the season for "greens." Ours is the true Italian stock.

Dill (Ger.)

DILL

Aneth (It.)

LONG ISLAND MAMMOTH is much superior to the common dill, being larger and more productive. Oz. 15c; ¼ lb. 40c; lb. \$1.25; 10 lbs. \$11.00; 100 lbs. \$100.00.

*Eier Pflanze (Ger.)***EGG PLANT***Melanzani (It.)**An ounce of seed will produce about 2000 plants.***Black Beauty—Prolific Strain**

We can strongly recommend this stock as it is the finest strain of Black Beauty that we have ever seen. The plants are strong and sturdy, producing an abundance of uniformly large handsome dark purple fruit even here in the North. See prices below.

	Oz.	¼ lb.	lb.
BLACK BEAUTY. True Stock. (See above).....	\$.50	\$1.35	\$4.50
EARLY LONG PURPLE. Early and Prolific. Dark. True Stock.45	1.20	4.00
<i>Fruit 7 to 9 in. long, not over 2 to 3 in. through. Early and very prolific, deep purple.</i>			
Extra Early Dwarf Purple or Black King45	1.20	4.00
<i>Very early, dark and prolific, but not as large as above kinds.</i>			
NEW HAMPSHIRE HYBRID. (New)60	1.75	6.00
<i>This new variety, which was developed by Dr. J. R. Hepler of the New Hampshire Agriculture Experiment Station has proved a real acquisition for growers who have difficulty in producing egg plants profitably in the North. It is earlier than Black Beauty, remarkably prolific, grows fine dark colored fruit oval in shape and medium size. On our farm it produced 8 to 10 good size fruits and several smaller ones on a single plant. Seed grown on our own farm and of high germination.</i>			

*Fenchel (Ger.)***FENNEL***Finocchio (It.)*

MAMMOTH. Large Round Bulb. Best for Market. This exceptionally fine strain produces large, round bulbs. Oz. 30c; ¼ lb. 90c; lb. \$3.00.

FLORENCE. Standard variety. Reliable producer of good bulbs. Oz. 25c; ¼ lb. 75c; lb. \$2.50.

*Endivien (Ger.)***ENDIVE***Endivia (It.)**An ounce of seed will sow about 100 feet of row; 2 to 2½ lbs. per acre.*

	Oz.	¼ lb.	lb.
DEEP HEART FRINGED. Broad fringed leaves. (New)	\$.20	\$.60	\$2.00
<i>An entirely new and distinct variety. Large and robust with broad fringed leaves and a good heart when fully grown. All growers of endive should try some. See also our retail catalogue.</i>			
GREEN CURLED PANCALIER. Best for Late Market. Pink Ribbed15	.40	1.25
<i>The leaves are not so finely cut as the Green Curled. Has fuller, heavier hearts. A favorite of market gardeners. This variety does best on rich soil.</i>			
GREEN CURLED. Also called "Chicory." Green ribbed15	.40	1.25
<i>Leaves finely cut and curled. Exceptionally uniform with a fine heavy heart.</i>			
FLORIDA DEEP HEART15	.45	1.50
<i>Broad leaves, dark green, slightly curled, produces large deep heads, which blanch well in the center. One of the best varieties, especially for late market.</i>			
FULL HEART BATAVIAN (Escarolle). True Dark Green Strain15	.45	1.50
<i>Our strain of this variety produces heads which are tightly packed with broad dark green leaves. Full hearts blanch to a beautiful golden color.</i>			

French Endive—Witloof Chicory *See under Chicory on preceding page.*

*Knoblauch (Ger.)***GARLIC***Agljo (It.)*

The bulbs should be separated into flakes or "cloves" and set out like onion sets. Bulbs for planting: Lb. 50c; 5 lbs. or more 45c per lb. Transportation paid.

*Blatterkohl (Ger.)***KALE***Cavolo verdi (It.)**One pound of seed will sow about one acre of land.*

	¼ lb.	lb.	10 lb.
DWARF CURLED or Blue Scotch	\$.40	\$1.25	\$11.50
<i>Very fine curled leaves, of dwarf habit and deep bluish green color.</i>			
SIBERIAN. Also called "Sprouts"30	1.00	9.00
<i>Dwarf spreading, broad leaves curled only at the edges. Color blue gray. Very hardy.</i>			

*Kohlraben (Ger.)***KOHL RABI***Cavolo rapa (It.)**An ounce of seed will sow about 200 ft. of row.*

	Oz.	¼ lb.	lb.	10 lb.
EXTRA EARLY WHITE. (New)	\$.50	\$1.35	\$4.50	\$40.00
<i>A very superior short top strain, maturing before Early White Vienna. A very uniform stock, best for outdoor and forcing. Similar to Prague Forcing, Triumph of Vienna, etc.</i>				
Early White Vienna25	.75	2.50	22.50
<i>Round white bulbs, early. Can be used 10 weeks after sowing.</i>				

Lattich (Ger.)

LETTUCE

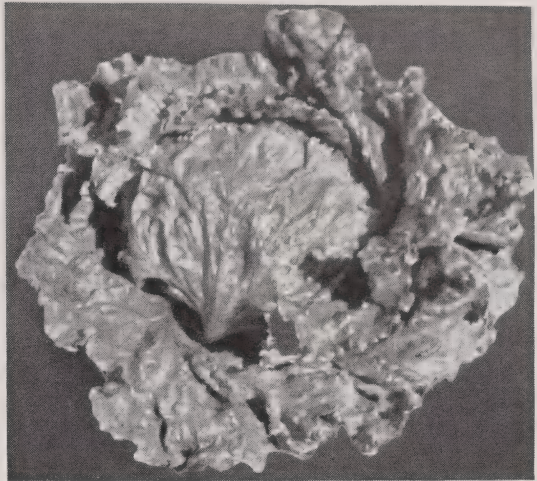

Lattuga (It.)

An ounce of seed will sow 250 ft. of row; about 2 lbs. per acre.

Imperial 44—Surest Heading “Iceberg” Lettuce for the East

This new lettuce has definitely changed lettuce growing practices in the East. It has proved to be the outstanding “Iceberg” lettuce to grow, especially on muck. It is the variety which does best on a wide range of soils both upland and muck, and will produce crops that can compete successfully with western grown Iceberg. Not only does it head better than any other strains but has shown definite resistance to tip burn. We have seen trial rows cut 100% good heads in July and commercial crops fully 90%.

The head is true Iceberg type, solid and of fine quality. Muck grown heads are usually a little larger than on upland. If you haven't done so by all means try Imperial 44 this year. See prices below.

Imperial 44 Lettuce

White Boston—Special Strain

One important thing about the Harris' Strain of White Boston is the uniform manner in which it heads, so that there is practically no waste in cutting a crop.

It has proved to be more resistant to tip burn than any variety we have ever seen.

You cannot get a better strain of White Boston Lettuce no matter what you pay for the seed. Our stock is fully equal to any strain obtainable. See prices below.

	Oz.	¼ lb.	lb.	10 lb.
BIG BOSTON. Special Strain. (100 lbs. \$90.00)	\$.15	\$.40	\$ 1.25	\$ 10.00
An exceptionally fine strain of this popular variety. The heads are solid and compact, and stand a long time. There is no better stock.				
Black Seeded Simpson.15	.40	1.25	10.00
An excellent loose headed variety.				
Chicken.10	.30	1.00	9.00
Immense leaves. Runs up rapidly. Use for green feed for chickens.				
COS or ROMAINE. Trianon Self-folding. The best variety.15	.45	1.50	14.00
Large long heads of fine quality and attractive appearance. Used for forcing under glass and outdoor culture. Always finds a ready sale.				
COSBERG. (New). Fine quality30	.90	3.00	27.50
Cross between Cos and Iceberg types. See full description in Retail Catalogue.				
GRAND RAPIDS. U. S. No. 125	.70	2.20	20.00
This comparatively new strain of Grand Rapids has proved to be a very superior forcing and outdoor variety where a leaf or “curly” lettuce is desired. The plants are a little more robust than other strains and fill out more, very uniform for size and well curled. The color is light green.				
GRAND RAPIDS.15	.45	1.50	14.00
Excellent for outdoor as well as greenhouse growing and is used by the most critical growers. The leaves are light green, uniformly well curled.				
IMPERIAL 44. (New) See above.25	.70	2.20	20.00
IMPERIAL 847. (New). Black Seed.25	.70	2.20	20.00
Outstanding for its ability to produce fine solid heads of “Iceberg” type. One of the few kinds which will succeed in both muck and upland and produce good heads in July as well as early spring and fall. Heads larger than Imperial 44 and a little later. Many growers have used this strain with marked success.				
May King. For Frame Forcing.15	.40	1.25	11.50
A very early head lettuce for open ground or forcing.				
NEW YORK No. 12.20	.60	1.85	17.50
This strain of Iceberg type is still preferred by some growers on upland.				
NEW YORK No. 515. Improved “Iceberg” Type.25	.70	2.20	20.00
Earlier than New York No. 12 and preferred by most growers. Recommended for upland growing only. Heads are large and solid. This is the sure heading strain which has pleased our customers for a number of years.				
SALAMANDER. (Dreer's All Heart or Black Seeded Tennis Ball)15	.40	1.25	11.50
Large heads, stands well in hot weather.				
WHITE BOSTON. Special Strain. See above. (100 lbs. \$125.00)	.20	.55	1.75	15.00

Lauch (Ger.)**LEEK***An ounce of seed will sow about 200 feet of row.*

	Oz.	¼ lb.	lb.
American Flag or Giant Musselburg. Large thick stalks	\$.60	\$ 1.75	\$ 6.00

The stalks are large and very sturdy. The bottoms are clear pearly white and smooth with the white part extending well up the stalk.

Melone (Ger.)**MUSKMELONS or Cantaloupes****Popone (It.)***An ounce of seed will plant about 50 hills; 2½ to 3 lbs. per acre***Delicious Muskmelons***As grown for seed on our farm.***HARRIS'
MUSKMELON SEED**

Growing seed of early highly productive and fine quality muskmelons for northern Market Gardeners has been one of our specialties for over twenty years. Our fields have been remarkably free from disease and our special strains are now considered the standard of excellence. You can be sure that these are the best muskmelons for the North.

HOTENTS for Melons

These large strong field forciers are ideal for vine crops such as melons and cucumbers. Economical and practical. Used by successful growers everywhere. See Inside Back Cover.

Delicious—The Earliest Large Melon

This fine melon is becoming more and more popular for local markets and roadside stands. It is the earliest large melon of high quality grown, and we recommend it most highly. It will not stand long distance shipping and we do not recommend it for this purpose.

Our strain is noted for earliness, large yield, vigor of vine, uniform size and type and remarkably sweet flavor. If you grow melons, plant some Delicious. See prices on next page.

Market King**A Fine Quality Melon for Market and Shipping**

These melons are so remarkable for their uniform sweetness and high flavor that one can actually cut hundreds without finding a poor melon. For this reason alone many growers are changing to Market King each year.

This is an exceptionally good melon for shipping as well as for local markets where a medium size melon is wanted.

The melons are medium size, grow very evenly, and are extremely heavily netted. They are oval in shape without deep ribs. The skin turns to a creamy yellow when ripe. The flesh is very thick with a small seed cavity, deep orange in color and of fine texture.

The vines are more healthy and vigorous than any kind we have seen, producing an enormous yield of fine fruit. This melon ripens normally a week later than Honey Rock and a few days later than Bender's Surprise. Crop short. See prices on next page.

Bender's Surprise**Harris' Specially Selected Northern Grown Strain**

This is still the leading large melon for the East, as these large, heavily netted melons have as yet no equal for combined large size, attractive appearance, fine flavor and long keeping qualities.

We have bred and grown this stock for over twenty years here on our own farm always paying special attention to high quality, earliness and trueness of type. This careful selection has made ours the *one* outstanding stock of this variety.

Although this is *not* the true old Irondequoit, which has practically disappeared from trade, growers and consumers refer to this variety now when they say "Irondequoit" melons.

There is no use buying inferior seed when Harris' Northern Grown Strain can be purchased at the low price we charge. See prices on next page.

"I raised from your seed Market King and Bender melons last season. Market King is the best flavored melon that I ever raised. Bender is some earlier and larger.

Rutgers for main crop and Stokesdale for early are the best tomatoes that I ever raised."

W. L. Rogers, Cohoes, N. Y. Feb. 27, 1940.

MUSKMELONS—Continued

	Oz.	¼ lb.	lb.	10 lb.
ARISTOCRAT. Superb Quality	\$.35	\$1.00	\$3.25	\$30.00
Large melons with very thick flesh of unexcelled quality. Does not keep well enough for general shipping, but at roadside stands with discriminating trade it will command highest prices because of the fine quality and appearance.				
BENDER'S SURPRISE. "Harris' Special Strain." See page 18....	.25	.75	2.50	22.50
DELICIOUS. The Earliest Large Melon. See page 18.....	.25	.75	2.50	22.50
Emerald Gem15	.35	1.10	10.00
Small, round, green, slightly netted, with yellow flesh of finest flavor; very early and prolific. A very uniform stock.				
Golden Champlain. Also called Lake Champlain20	.55	1.75	16.50
The earliest melon and valuable on that account. Melons are medium size.				
HALE'S BEST. For Distant Markets15	.35	1.10	10.00
The earliest and best of the Rocky Ford type for the East. Medium size, oval fruit. Very heavily netted. Flesh thick, deep orange and of finest quality. Ours is an excellent stock with fruit that is remarkably uniform in size, shape and quality.				
Hearts of Gold (Large strain)15	.40	1.25	11.50
A fine melon for shipping, medium in size, round and well netted. Flesh thick, orange yellow, of uniformly excellent flavor. We have a fine stock of the large strain of this well known variety.				
HONEY ROCK or SUGAR ROCK15	.40	1.35	12.50
We have a fine stock of this popular melon which is largely grown in many sections because of its attractive appearance, fine flavor and ability to stand handling. The melons are nearly round, about 5" in diameter.				
MARKET KING. New. See page 18.....	.35	1.00	3.25	30.00
Queen of Colorado or Pride of Wisconsin20	.55	1.75	15.00
Similar to A & C, Jersey Gold, etc. This is a true, heavy bearing stock which we are sure will give entire satisfaction.				

Wasser-Melone (Ger.)

WATERMELONS

Cocomero d'acqua (It.)

An ounce of seed will plant about 25 hills; 2 to 3 pounds to the acre.

The varieties we have listed here are all suitable for growing in the North, as they are early kinds and in our climate under usual conditions will produce ripe fruit before frost from seed sown in the open ground. See our general catalogue for full descriptions.

	Oz.	¼ lb.	lb.	10 lb.
DIXIE QUEEN. (Early)	\$.15	\$.45	\$1.50	\$14.00
One of the best for the North. Early and very productive. Skin light green with darker stripes. Flesh deep pink, of fine quality. Stands up well for shipping and an excellent kind for local market or shipping. True stock.				
HUNGARIAN HONEY. The Sweetest Watermelon12	.30	1.00	9.00
KLECKLEY'S SWEETS10	.25	.70	6.50
STONE MOUNTAIN. Try This One For Market12	.30	1.00	9.00
Large, oval somewhat flattened ends. Fine quality and prolific.				
WINTER QUEEN. White Skin Long Keeper12	.30	1.00	9.00
WONDER MELON12	.30	1.00	9.00
The largest and best of the oblong varieties for growing in the North. They are early, dark green with bright red flesh of fine quality. Will produce large crops even where the seasons are short.				
GREEN CITRON or Colorado Preserving10	.25	.75	7.00
Not a true watermelon, outer flesh is used in preserving. Very prolific. Green seeded.				

Champignonbrut (Ger.)

MUSHROOM SPAWN

Fungo pratajola (It.)

Full directions for growing are sent with each order of spawn.

Finest pure culture spawn, absolutely fresh. Mushrooms can be raised in cellars or under greenhouse benches where the temperature can be kept between 50 and 60 degrees.

Ours is pure culture spawn grown by one of the largest mushroom producers.

BOTTLE SPAWN (White). Grown in bottles under sterile conditions after which the bottle is removed and the spawn packed in a carton. One carton will spawn 40 sq. ft. of bed.

Price: Single Carton \$1.25; 3 cartons \$3.00. Prepaid. Not prepaid: 10 or more cartons at 80c per carton. Weight per carton about 1 lb. Write for prices on larger quantities.

MUSTARD

An ounce of seed will sow about 300 feet of row.

	Oz.	¼ lb.	lb.	10 lb.
FORDHOOK FANCY (Long Standing)	\$.15	\$.30	\$.85	\$8.00
Leaves are slightly smaller and more finely cut and curled than the Southern Curled. A very pure stock.				
LONG STANDING (Southern Curled)15	.30	.85	8.00
Will stand without bolting to seed for a long time. During the hottest part of the summer this variety has stood for three weeks after it was large enough to cut, without going to seed. The leaves are a medium dark green with beautiful finely curled edges.				

MANGELS and SUGAR BEETS—For Stock

Six to eight pounds of seed will sow an acre.

See our general catalogue for complete descriptions. $\frac{1}{4}$ lb. 1 lb. 10 lbs.

Golden Tankard. Deep yellow flesh.....	\$.25	\$.75	\$7.00
MAMMOTH LONG RED. Most Popular Kind.....	.25	.75	7.00
NEW "HALF SUGAR" MANGEL. Rich in Sugar.....	.25	.75	7.00

Ocher (Ger.)

OKRA or GUMBO

Ocra (It.)

PERKINS' LONG-POD. Standard Market Variety. Large green pods. Ours is a true uniform stock. *An ounce of seed will sow about 50 feet of row. Oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 60c.*

Zweibel (Ger.)

ONIONS

Cipolle (It.)

An ounce of seed will sow 125 feet of row. It requires 5 to 6 lbs. of seed per acre.

Onion Seed

This is another of the important vegetables in which there is a shortage of seed this year. However we are fortunate in having what we believe will be enough seed of our varieties to take care of our customers. You can buy Harris' onion seed with every confidence, we will not handle seed of inferior quality or poor germination under any circumstances.

Brigham
Yellow
Globe
Onions

Brigham Yellow Globe

Also called "Michigan Onion" and "Michigan Strain"

The Best Variety for Storage

This remarkable onion together with Early Yellow Globe has practically taken the place of all other kinds in the East and Middle West for growing on muck and is also a very popular upland variety.

It is outstanding because of the large yields obtained, the fine rich golden color together with a heavy thick skin which makes it the best variety for storage.

The seed we offer is of the true *Brigham Strain*, deep globe in shape and even more uniform for type and size than it was when first introduced. See prices on next page.

Early Yellow Globe

The Best Early Yellow Onion

Earliness, enormous crops, fine appearance and unusually good handling and keeping qualities have made this variety the leading early onion both for upland and muck.

The onions mature at least two weeks before Yellow Globe Danvers, are nearly globe shaped, deep yellow in color and with a good skin.

We are pleased to be able to offer our customers the same true stock of Early Yellow Globe which has been so satisfactory for the past seven years. *However we advise ordering early as we may be sold out before planting starts.* See prices on next page.

"With the 10 lbs. of onion seed (Early Yellow Globe) purchased from you, I sowed 2½ acres which produced 5½ cars of onions. This is the best yield we have had in 6 years. Jacob De Badts, Sodas, N. Y. Nov. 15, 1940.

Riverside Sweet Spanish

This fine onion can be grown almost anywhere in the East and is becoming more popular each year. It is an excellent variety both for upland and muck. The onions are large and handsome often weighing a pound or more and are fine keepers.

They require a little more time than the early varieties but are vigorous, hardy growers, withstanding adverse growing conditions better than any other kinds we know. Crop short. See prices on next page. See also plants on next page.

Harris Onion Sets

We supply clean, firm, uniform and true to name onion sets. These are the best onion sets that can be obtained. See prices and varieties under ONION SETS on next page.

ONIONS—Continued

	¼ lb.	lb.	10 lb.	100 lb.
BRIGHAM YELLOW GLOBE. Also called "Michigan Onion." See preceding page.	\$1.20	\$4.00	\$39.00	\$375.00
EARLY YELLOW GLOBE. Best early globe onion. See preceding page.	1.20	4.00	39.00	375.00
EBENEZER or "Japanese." Grow for sets. This very fine yellow onion will keep all winter and has a mild, pleasant flavor. They are flattened and of a light, yellow color. It is important to get the true Ebenezzer. We have it.	.90	3.00	29.00	275.00
EXTRA EARLY BARLETTA. For Pickling. The best small white onion for pickling. <i>Sow about 50 lbs. per acre.</i>	1.20	4.00	39.00
JAPANESE BUNCHING. Large straight onions. Make 3 to 5 large straight mild white onions to a plant, is a rapid grower and produces marketable "bunch" onions very early. When fully grown, the onions are nearly an inch in diameter.	1.20	4.00	39.00
Mammoth Silver King. Very large white, flat onion used principally for bunching while green. Seed sown in the spring makes large bunching onions in July and August.	1.25	4.15	40.00
RIVERSIDE SWEET SPANISH. See preceding page.	1.55	5.35	52.00
SOUTHPORT RED GLOBE. The Best Red Onion. Large, perfectly round, deep red onion; keeps well and is by far the best red variety. Ours is a very superior stock.	.90	3.25	31.50	300.00
SOUTHPORT WHITE GLOBE. (The Finest White). The largest and finest white onion. A very profitable variety for experienced growers as it always commands the highest prices.	1.30	4.35	42.00	400.00
Southport Yellow Globe. Has been superseded by Brigham Yellow Globe. (See above and on page 20.)
WHITE BUNCH. (White Lisbon). (Sold out)
WHITE PORTUGAL or SILVER SKIN. Standard for Bunching. Flat, white onions of mild flavor and early. Excellent for pickling and early green onions.	1.30	4.35	42.00	400.00
YELLOW GLOBE DANVERS. Our stock of this popular variety will produce onions of uniform globe shape with deep color and tight skin.	1.20	4.00	39.00	375.00

ONION SETS

One peck of sets will plant 600 to 700 feet of row. Use 12 to 20 bu. per acre.

EBENEZER or "JAPANESE." The Best Yellow Sets. True Stock. 8 lbs. (Pk.) \$1.40 Transportation paid. Not paid, 32 lbs. (Bu.) \$3.00; 5 bu. or more at \$2.85 per bu.

SILVERSKIN (White). Best for bunching. 8 lbs. (Pk.) \$1.65 Transportation paid. Not paid, 32 lbs. (Bu.) \$3.50; 5 bu. or more at \$3.35 per bu. *We shall be glad to quote prices on larger lots at any time.*

NOTE: We will not ship onion sets until in our judgment danger of freezing is past, unless we are specifically instructed to do so.

Riverside Sweet Spanish
Onion Plants

These plants which are grown in Texas have proved excellent for raising both early green onions and dry bulbs for late summer sale. More gardeners find it profitable each year to grow onions from our plants and our sales of onion plants in the past few years have steadily increased from a few thousand to nearly two millions.

Our experience has shown that Riverside Sweet Spanish is the most satisfactory kind to grow, *so we do not offer any other kind.* When set in the spring will produce large firm onions of the finest type in 8 to 10 weeks.

Price: 10 bunches (about 1000 plants) \$1.75 transportation paid. Not paid, full crate (about 6000 plants) \$6.00.

Weight per crate (about 6000), 30 lbs. Write for prices on larger lots.

The above plants are tied in bunches of about 100 plants; 60 bunches (about 6000) make a full crate.

NOTE: Onion plants can be supplied between April 15 and May 15th only. These plants can be ordered at any time for shipment between the above dates. Please state on the order when you want the plants sent.

A Single Bunch of Riverside Sweet Spanish Onion Plants
(about 100 plants)

PEANUTS

EARLY SPANISH. This is the earliest variety. Can be grown successfully here in the North on light warm land. Lb. 35c; 5 lbs. \$1.50; 10 lbs. \$2.50.

*Petersilie (Ger.)***PARSLEY***Prezzemolo (It.)**An ounce of seed will sow about 200 ft. of row.***Paramount—The Outstanding Parsley**

This is the finest and most uniformly curled strain of parsley we have ever seen. It is slightly more dwarf and slower growing than Champion. The leaves are all finely curled, of a rich deep green and with stems of good length. There are no flat leaves. Altogether this is a superb variety both for outdoor growing and forcing and we recommend it highly. See prices below.

	Oz.	¼ lb.	lb.	10 lb.
CHAMPION, or Triple Moss Curled.	\$.10	\$.30	\$.90	\$8.00
<small>This is a very superior strain. Although not quite as finely curled as Paramount it is an early, rapid growing stock which will produce an abundance of fine parsley and give satisfaction wherever used.</small>				
DWARF PERFECTION. (Crop failed)
PARAMOUNT. Finest Curled. See above.10	.30	.90	8.00
Plain, large flat leaves, not curled. Used for flavoring.10	.25	.80	7.50

Parsley for Roots

HAMBURG (Heimisher). Long or Parsnip Rooted. Selected Stock.10	.30	.90	8.00
<small>The roots are up to 8 in. long, parsnip-shaped, smooth and white. We have a very fine stock of this variety, which produces long, straight, thick roots. We have never seen a better strain.</small>				

*Erbsen (Ger.)***PEAS***Piselli (It.)**One pound of peas will plant 100 ft. of row. Two to five bushels per acre.*

*At the prices here quoted peas cannot be sent prepaid. Purchaser pays transportation on peas except as follows: If your order for vegetable seeds including peas amounts to \$20.00 or more we will prepay the freight charges.

The varieties we offer here are carefully selected as the best market garden kinds. Our seed is grown from the purest stocks, carefully cured, hand picked and of high germination. We will not handle any other kind of seed.

World's Record**Earliest Large Podded Wrinkled Peas**

This is the earliest wrinkled pea with large pods. It is ready only a few days after Mammoth Podded Extra Early and is much superior in quality. The pods are pointed, 3 to 3½ in. long, medium dark green, containing large peas of the finest flavor.

The vines are about 2½ ft. high, sturdy and bear large crops. We offer an exceptionally fine early stock of this popular variety which we recommended highly. See prices on next page.

Laxton's Progress**Large Podded—Medium Early**

We offer a very superior stock of this excellent variety which produces heavy yields of large handsome pods with great regularity.

The vines grow 15 to 18 in. high and are covered with an abundance of large deep green pods 4 to 4½ in. in length. The peas ripen so uniformly that ordinarily two pickings will clean up the crop.

The big, handsome, well filled pods find a ready sale making this variety one of the best kinds to follow the extra early sorts. See prices on next page.

Midseason Giant

Also called—Giant Stride, Asgrow 40, Number 10, Wyoming Wonder, etc.

This variety comes on between the early sorts and the late varieties and has shown a remarkable ability to stand up and bear well in *hot dry weather*. The pods are large (4½ to 5 in. long) dark green and pointed. The yield is large, the pods being borne in great numbers on strong vigorous vines about 24 in. high. This is a high quality wrinkled variety and should not be sown until the weather is settled. See prices on next page.

Rogers Gilbo Peas

Rogers Gilbo—New Large Podded Main Crop Peas

This fine new variety has become one of the most popular sorts of the Midseason Giant or so called "Stride" group. It resembles Midseason Giant very closely having the same sturdy vine and large yield of big pods. However it is a few days earlier in season and is definitely more hardy so that the seed can be sown earlier than Midseason Giant. This is a real advantage.

The pods are very attractive, 4½ to 5 in. long, dark green and pointed and filled with large peas of superior quality. We recommend this variety highly. See prices below.

PEAS—Early Varieties

25 lbs. or more of one variety will be supplied at the 100 lb. rate. 1 bu. weighs 56 lbs.

Telephone. (4½ ft. to 6 ft.)30	1.50	2.70	8.40	15.00
Our seed is of a superior strain, having large very deep green pods.					

PARSNIPS

An oz. will sow 150 ft. of row. 2½ to 3 lbs. per acre.

Harris' Model The Whitest Parsnips

Our customers find this to be the best variety that they can grow.

These are smooth, snow white, hollow crown parsnips, with a minimum of side roots or prongs. They are of good length, but not too long and their smoothness is quite remarkable, giving the roots a very attractive appearance so that they usually sell for top prices.

There is no better parsnip than "Harris' Model." Seed of our own growing from carefully selected transplanted roots.

Oz. 15c; ¼ Lb. 40c; lb. \$1.20; 10 lbs. \$11.00; 100 lbs. \$100.00.

Long Hollow Crown

Better than most stocks. Long smooth roots, not as uniform or white as Model.

Oz. 12c; ¼ lb. 30c; lb. \$1.00; 10 lbs. \$9.00; 100 lbs. \$80.00.

Harris' Model Parsnips
Selecting Seed Roots on our Farm.

*Peffer (Ger.)***PEPPERS***Peperoni (It.)**An ounce of seed will produce about 1000 plants.***Harris' Northern Grown Pepper Seed**

If you want to make peppers a profitable crop, here in the North use Harris' Grown Northern Pepper Seed. We have specialized for over twenty years in growing peppers on our farm. Years ago we found out that the varieties which are usually grown in the long seasons and warmer climates farther south did not ripen enough fruit to make peppers a profitable crop in the North. So we developed a number of *early, heavy bearing varieties*, which are suited to our conditions and will produce an abundance of ripe fruit wherever the seasons are short.

Harris' Wonder Peppers
(This is a standard ½ Bu. Basket.)

Harris' Wonder **A Truly Great Pepper**

This is a smooth thick fleshed California Wonder type which combines earliness with high yield. It will give you not only large crops of green peppers but an abundance of ripe fruit before frost.

The peppers are large, chunky and beautiful dark green turning to rich red when ripe. They are very thick meated and the quality is excellent. A level bushel weighs over 30 lbs.

Those who have grown this variety since we introduced it in 1937 have been most enthusiastic in its praise. Grow some this year, we know you will like it. *Seed of our own growing.*

See prices on next page.

"I had your pepper seed last year and had the honor of having the best on Menands Market. They were wonderful. There were quite a few farmers bought them for seed."
Albert Ferretro, Waterliet, N. Y. Mar. 7, 1940.

Harris' Earliest—The Earliest Sweet Pepper

Introduced in 1918 and still going strong!

Harris' Earliest is an invaluable variety for the extreme northern parts of the country where other peppers will not ripen. We grow and check on our farms practically every new pepper that is brought out and we have not seen one which is earlier. It is the result of over twenty years of growing here in the North with constant improvement for size, earliness and yield. The plants are not large but are literally covered with medium size, attractive bright red fruit. If you want very early fruit or have trouble getting peppers ripe, we recommend that you plant some of the Harris' Earliest. *Seed of our own growing.* See prices on next page.

Harris' Early Giant—The Earliest Large Pepper

Harris' Early Giant which we introduced a number of years ago is unquestionably recognized as the standard large early variety and gardeners in the North find it very profitable to grow.

It is a most dependable cropper producing an abundance of large peppers often 4½ in. long and 4 in. across and only a week later than Harris' Earliest, the earliest pepper grown. To be sure of the true stock, get your Harris' Early Giant from us. *Seed of our own growing.* See prices on next page.

Harris' Improved Squash Pepper—Very Early and Heavy Yields

This pepper replaces the old type known as Squash, Cheese, Sunnybrook, etc.

It is so early and prolific that it produces three times as many peppers as any other "Squash or Cheese" pepper which we have seen. This early character and high yield make it a profitable kind to grow even here in the north. The fruit is the true "Squash" shape, with very thick flesh which is mild and sweet. These peppers are also known as "Pimentoes" and are used for canning whole in some sections. *Seed of our own growing.* See prices on next page.

Hot Portugal—Large and Hot

If you want lots of large, long *hot* peppers, grow this kind. The fruit is long, pointed and quite smooth for a pepper of this type. They normally average six inches or over in length and are borne profusely on the sturdy plant. This pepper is bright red when ripe and in addition to its large size, is just as hot as the old Giant Cayenne. *Seed of our own growing.* See prices on next page.

Harris' King of the North

Extremely Large, Early and Prolific

Since we introduced this variety in 1934, it has earned a reputation of producing greater yields of large peppers here in the North than any variety grown.

The plants are medium size, branching and literally covered with the immense fruit. The size and shape of the peppers is well shown in the photograph to the right.

The flesh is firm, mild and sweet. If you have not done so we urge you to try these peppers this year. *Seed of our own growing.* See prices below.

Harris' King of the North Peppers

Noted for heavy yield and large size.

HARRIS' PEPPER PLANTS

We specialize in growing fine, strong, well hardened, true to name pepper plants. We are large growers of plants to order, either seedlings or transplanted plants. See page 35.

"I have bought seeds and plants from you for over 25 years and have always had wonderful results."

Frank B. Goring, Corry, Penna. April 25, 1940.

"I think I have used your seeds for 35 years and have found them satisfactory in every way."

John F. Simpson, Pierpont, N. H. May 3, 1940.

NOTE: $\frac{1}{2}$ ounce of pepper seed supplied at $\frac{1}{2}$ the ounce price.

Radies (Ger.)

RADISH

Ravanelli (It.)

¼ lb. of seed will sow about 300 ft. of row.

NOTE: Every package of Harris Seeds is marked with the germination test. To growers who are interested we will be glad to furnish germination figures of our radish seed before they buy their seed.

Cavalier

Short Top Scarlet Globe

Seldom has a new variety met with such instant and general approval as this new radish. Growers everywhere are most enthusiastic over it.

The short tops, brilliant deep scarlet color, beautiful shape and extreme uniformity, and ability to stand a long time make it the best forcing type we have ever seen. It is often possible to pull practically 100% of number one radishes. It is also especially good on muck soils.

Leading growers tell us that these radishes sell for the best prices even when the market is slow.

In spite of the scarcity of good seed of Cavalier due to the invasion of Holland, we are fortunate to have a sufficient supply on hand to take care of our customers. This seed has all been tested by our customers or on our farm, or both, and we know it is true.

You can buy Cavalier from us with confidence.

See prices below.

Early Scarlet Globe Radish

Special Strain

This is the finest Early Scarlet Globe both for outdoor and greenhouse growing.

The radishes are the true olive shape, and of an attractive bright red color. They are early and very uniform in maturity, have good tops. The seed is vigorous and of high vitality which is of utmost importance to the greenhouse grower. See prices below.

Icicle Radish (White)

Short-Topped Strain—Also Called Pearl Forcing

This is an ideal stock of Icicle Radish, both for forcing and outdoors and it can also be grown successfully on muck. We have never seen a better stock. The radishes are uniformly smooth and clear white. The tops do not grow too long in the greenhouses or frames, but are long enough for bunching when grown outdoors. See prices next page.

25 lbs. or more of any one variety will be supplied at the 100 lb. rate.

	¼ lb.	lb.	10 lb.	100 lb.

RADISHES continued on next page.

Cavalier Radish

Typical of the small top and fine type.

RADISHES—Continued

	¼ lb.	lb.	10 lb.	100 lb.
EARLY SCARLET GLOBE. (Long Island Strain)	\$.30	\$.90	\$8.50	\$80.00
This is an excellent medium top strain which is particularly well liked on Long Island. The bulbs are of brilliant scarlet color. In general the shape is more round than our Special Strain. This is a particularly fine stock for outdoor growing.				
EARLIEST SCARLET WHITE-TIPPED. Forcing Strain30	.90	8.50
The radishes are round, brilliant scarlet with white bottoms. This is the finest strain of white-tipped radish, having small tops and is superior both for forcing and outdoor growing.				
FIRECRACKER. (New) Half Long Scarlet30	.90	8.50
Bright scarlet, 2½ to 3 in. long, solid and crisp. Short top. Does equally well in greenhouse or open ground. Has replaced Long Scarlet Short Top.				
Giant White Stuttgart30	.85	8.00
Large late white.				
HARRIS' SPECIAL SCARLET FORCING. (Glowing Ball)25	.80	7.50	70.00
This is the best short top round forcing radish we know. Very early, perfectly round, short top and a brilliant scarlet color.				
ICICLE or Pearl Forcing. Short-topped Strain. See page 2630	1.00	9.00
SCARLET CHAMPION. (New) Large Globe30	.90	8.50
This is the leading large globe radish for outdoor sowing. The bulbs attain a large size and are firm and mild. The color is a fine deep scarlet.				
WHITE STRASBURG30	.90	8.50
Large late white radish.				

Winter Radishes

Sow in August and store in moist sand for winter. ¼ lb. lb. 10 lb.

BLACK SPANISH TURNIP	\$.30	\$.85	\$8.00
Roots are round or turnip shaped and grow very uniform in shape and size. Clear white flesh, skin deep black without white streaks.			
Long Black Spanish30	.85	8.00
Similar to above but with long oval roots, often 8 to 9 in. long by 1½ in. in diameter. A very even stock.			

Rhubarber (Ger.) RHUBARB or PIE PLANT Rabarbaro (It.)

Myatt's Linnaeus. Early large stalks. This is a better strain of the common rhubarb so widely grown. 1 oz. of seed will sow about 100 ft. of row. ¼ lb. 60c; lb. \$2.00; 10 lb. \$19.00.

MacDonald Rhubarb Roots

We have an exceptionally fine lot of roots of the famous MacDonald Rhubarb. This rhubarb is the most distinct improvement made in rhubarb in many years and is conceded to be the best rhubarb ever produced.

The plant is vigorous and strong, producing large tender stalks which are deep crimson in color. They make a very attractive bunch and when cooked the sauce is a beautiful deep pink and of excellent flavor. Market growers who have been fortunate enough to get these roots in the past find this rhubarb sells readily at the highest prices.

We have not succeeded in producing this variety from seed.

Roots only—Strong divisions. Not prepaid: 10 for \$1.65; 100, \$10.00; 1000, \$85.00.

See also page 35.

Sauerampfer (Ger.) SORREL Acetosa (It.)

The best variety for market

SUMMER SQUASH

$\frac{1}{4}$ lb. of seed will plant about 100 hills;
5 to 6 lbs. of seed per acre.

Yankee Hybrid—New

Early and Prolific

All American Winner for 1941

This is a true hybrid developed by Dr. Lawrence C. Curtis of the Connecticut State College.

For the production of early fruit this new Hybrid straightneck Summer Squash is without equal. It not only was earlier by several days, but on our farm the first picking averaged twice as many marketable fruit as the next best variety and the total yield greater.

The squash are of the finest type, with straight, thick necks, slightly roughened skin and of a glowing waxy yellow color that makes them very attractive. There is no green color on these squash, even when very young. See prices below.

Yankee Hybrid Squash
These are the most prolific grown

Giant Summer Straightneck—Butter Yellow

Market gardeners whose demand is for summer squash of butter yellow color find this improved strain ideally suited to their needs. It is early and very prolific. The fruits are smooth and a bright butter yellow without any green color even when young.

This type of Straightneck has been popular with many New England market gardeners. The seed we offer was grown on our own farm and we can highly recommend it. See prices below.

	Oz.	$\frac{1}{4}$ lb.	lb.	10 lb.
Early Giant Crookneck	\$.15	\$.35	\$1.10	\$10.00
Larger than the old Bush Crookneck and equally early. True strain.				
Early Yellow Bush Scallop15	.35	1.10	10.00
Similar to the white, except in color. See below.				
GIANT SUMMER STRAIGHTNECK. Bright Yellow15	.40	1.25	11.50
This is our original strain of light yellow Straightneck which has been so popular among gardeners because of the very large percent of straight fruit, with thick meaty necks of the desired type. Some of the young fruits show a pale green color which gives them an attractive tender appearance.				
Growers find that this is the most uniform strain they can buy.				
GIANT SUMMER STRAIGHTNECK. Butter Yellow. See above.	.15	.40	1.25	11.50
EARLY YELLOW PROLIFIC. (New) See below.....	.20	.55	1.75	15.00
ITALIAN VEGETABLE MARROW (Cocozelle)15	.45	1.50	12.50
Long mottled green fruit of high quality. We have a fine stock which will produce dark green squash of uniformly good length. Bush vines.				
MAMMOTH WHITE BUSH SCALLOP. Also called "Cymling"15	.35	1.10	10.00
The popular type, producing large yields of thick creamy white, well scalloped fruit. Bush vines.				
DARK GREEN ZUCCHINI. Special Long Strain15	.45	1.50	12.50
This is a very superior strain with uniformly long dark green fruit, entirely without light grey fruit or light stripes. The young fruits are long and dark green. Exactly what is wanted.				
YANKEE HYBRID. Remarkable New Early Straightneck. See above	.50	1.75

Early Yellow Prolific Summer Squash

Early Yellow Prolific

A New Summer Squash
of Great Merit

These are straightneck squash, not as large as the Giant varieties, but they are borne in great profusion on the dwarf vines. These squash are very uniform for shape and size and are remarkable for their smooth skin and clear bright yellow color, having no trace of green even when very young.

Although somewhat susceptible to Fusarium wilt, growers who have grown this squash have been greatly pleased with their crop. See prices above.

Kuerbiss (Ger.)

WINTER SQUASH

Zucca (It.)

¼ lb. of seed will plant 50 hills; 3 to 4 lbs. of seed per acre.

Blue Hubbard

Harris' Selected Strain

This is the large, rugged strain that produces big yields that bring top prices. Being the result of years of close breeding, it is considered the finest, purest stock grown.

Harris' Blue Hubbard can be relied on to produce immense yields of large true type squash. The seed we sell is all of our own growing.

Although this was originally strictly a New England variety, the fine quality, enormous yields and excellent keeping quality have made this a most popular kind throughout the East.

See prices below.

Harris' Blue Hubbard Squash
As grown for seed on our North Farm

"We had the best piece of Blue Hubbard from your strain we ever had." P. S. Goring, Hudson, N. H. Feb. 29, 1940.

"I can't help telling you about the success I had with the Quality Squash I grew last year. I sold all I had right on the farm at double the going price of squash and customers came back for more. It is the best squash I ever tasted." Leonard F. Dudley, Newport, N. H. May 16, 1940.

Warren Squash—Improved Essex Hybrid (New England Strain)

This fine old New England squash has become popular in many sections which formerly would not use "orange or red" squash. Our stock of this type has proved more than satisfactory.

The squash are early, medium size, very uniform in shape and heavily warted. We have bred this strain with a well formed but not too prominent "button." The flesh is fine grained, extra thick and the color a beautiful deep orange red. **Seed of our own growing.** See prices below.

	Oz.	¼ lb.	1 lb.	10 lb.
BLUE HUBBARD. Selected Strain. See above.....	\$.20	\$.60	\$ 2.00	\$ 17.50
Boston Marrow10	.25	.80	7.50
Popular fall squash, deep orange color. Used principally for canning and pies.				
BUTTERCUP. (New)20	.60	2.00	17.50
This new small squash has exceptionally thick flesh and fine quality and is becoming very popular for roadside stands and local markets. See full description in our Retail Catalogue.				
DELICIOUS15	.40	1.35	12.50
Smaller than Hubbard, but of finer quality, deeper green shell with orange flesh. Dry and sweet.				
GOLDEN DELICIOUS15	.40	1.25	11.50
An excellent small orange squash for roadside and market. Superb quality.				
Golden Hubbard15	.35	1.10	10.00
The same shape as Hubbard but with deep orange yellow skin.				
HUBBARD—True15	.35	1.10	10.00
Dark green smooth skin, fruit of high quality. We have a fine true strain.				
IMPROVED WARTED HUBBARD. (Dark Green)15	.40	1.25	11.50
Larger, more warted and darker green than the true Hubbard squash. A true stock that will produce large crops.				
QUALITY. The richest small squash20	.60	2.00	17.50
An unexcelled small squash for roadside and market. Dark green, 6 to 8 in. in diameter, heart shape. Flesh exceptionally dry and sweet. Seed of our own growing.				
TABLE QUEEN (The Individual Squash). Also called Des Moines, Acorn and Queen Ann15	.40	1.25	11.50
Small dark green fruit 5 to 6 in. long, 4½ in. in diameter, deeply ribbed and very hard. We have a fine true stock of this popular variety.				
WARREN. Improved Essex Hybrid. See above.....	.20	.60	2.00	17.50

Harris' Tomato Plants

We have a reputation for producing fine, sturdy, true to name tomato plants. They can be furnished either ready to set out in the open ground, or, if preferred, small plants which can be grown in frames for a few weeks before setting out. See next page and also page 35 for prices and varieties.

Spinat (Ger.)

SPINACH

Spinace (It.)

Sow about 12 to 20 lbs. of seed per acre in rows.

Spinach for 1941

Of all the imported seeds upon which the Market Gardener depends, there is none in such short supply as spinach. The invasion of Holland cut off all shipments of the 1940 crop and it occurred too late for most American seedsmen to get seed crops planted in this country, consequently there is very little new crop spinach seed and there was not very much seed held over.

We were fortunate in being able to harvest some Viking, Blight Resistant Savoy and Long Standing Bloomsdale, which with our holdover seed will give us a small supply of these varieties and a few other kinds, which we will supply to our customers as long as it lasts, when accompanied by orders for a reasonable amount of other seeds.

We suggest that spinach growers plan their acreage carefully and place their orders as early as possible. We also think it good practice to try sowing seed a little thinner, and give it better care.

Be sure to treat your spinach seed with Red Copper Oxide (Cuprocide) before sowing. See page 48.

	1 lb.	10 lb.	25 lb.	50 lb.
BLIGHT RESISTANT SAVOY-LEAF. For Fall Crop	\$.70	\$ 6.50	\$ 15.50	\$ 30.00
We have an exceptionally fine stock of this variety. It is the <i>true Virginia strain</i> which is practically 100% resistant to blight and can be depended on to produce large crops of fine dark well crumpled spinach in the fall where other varieties blight and fail entirely.				
Blight Resistant Savoy does not stand as well as most other kinds in the spring, although our strain will stand three to four days longer than most.				
KING OF DENMARK. Longest Standing70	6.50	15.50	30.00
This spinach will stand longer than any other kind. The leaves are very dark green, quite thick and have small stems. On this account and because of the heavy yield this is one of the best varieties for canning. True stock.				
LONGSTANDING BLOOMSDALE. (Savoy). For Spring Sowing75	7.00	16.25
We have an exceptionally well bred strain. Large deep green, well crumpled leaves which produce enormous crops and stand a long time without bolting to seed. We recommend this stock.				
OLD DOMINION. For Fall Crop
<i>Crop failed</i>				
NOBEL GIANT-LEAVED70	6.50	15.50
Large, early, medium dark, nearly smooth leaves. Grows rapidly and is ready to cut early. Remarkably long standing. An excellent and profitable kind for spring sowing where large volume is wanted.				
SPECIAL SUMMER SAVOY. Best Longstanding Bloomsdale75	7.00	16.25
VIKING. (New) Large Leaved—Long Standing70	6.50	15.50
This new spinach has proved to be a most excellent kind for spring sowing as it grows very rapidly and thus sets to cutting size early. It will continue to grow for a long time and produce immense plants without going to seed.				
The large leaves resemble Nobel Giant Leaved in habit of growth but are somewhat darker in color and more crumpled. Will produce large crops.				

Tomate (Ger.)

TOMATOES

Pomo d'oro (It.)

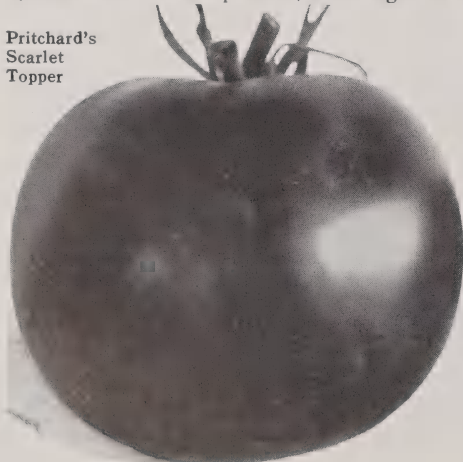

An ounce of seed will produce about 2000 plants.

Harris' New York State Certified Tomato Seed

This is the sixth successive year we have offered New York State Certified Tomato seed of our own growing. This seed must meet the *highest* standard of purity and freedom from disease.

Most of the tomato seed sold today is a by-product from fruit which has been processed in canning factories for the juice. Our Certified Tomato Seed is all grown on our own farms *for seed only*. Our seed crops are grown 100% from hot water treated stock seed and the seed is all saved by the fermentation process; reducing seed borne diseases such as early blight to a minimum.

Pritchard's
Scarlet
Topper

Pritchard's Scarlet Topper Also Called "Pritchard"

Because of its fine quality and beautiful appearance, this tomato has become a very popular market variety. Starting with stock seed sent us by the United States Department of Agriculture, we have been growing and selecting the seed here in the North in order to maintain the size, vigor and earliness of this variety.

This is a very heavy bearer. The fruit is medium early, ripening right after Bonny Best. The flesh is very solid with few seed cavities and a fine red color all through. It is quite free from cracking. The quality is extra fine, being mild and without acidity.

The plants are robust but not of rank growth. **N. Y. State Certified Seed** of our own growing. See prices on page 33.

Victor—The New Extra Early Tomato

1941 All American Winner (See photo on front cover)

Developed by Dr. Yeager at Michigan State College, this new tomato is the most outstanding early variety ever produced. At the time when the old extra early varieties have but one or two ripe fruits, Victor has large clusters of beautiful tomatoes ripening all at once. With Victor you can market an abundance of fine smooth first class tomatoes earlier even than you could the old fashioned kinds and get top prices.

The tomatoes are of good size (the average was over 4½ oz. on our farm), smooth and solid. Having a characteristic light color when green, they turn quickly to a brilliant scarlet color *all over*. *There are no green spots on Victor.*

The vine is a sturdy determinate type, that can be planted close (2 x 3 ft. is recommended) and thus have more early fruit per acre. *Be sure to grow some Victor this year.*

Seed of our own growing. See prices on page 33.

New Rutgers Tomato

Harris' Early Strain

Very few varieties have attained such universal popularity in so short a time as has the Rutgers. Since its introduction a few years ago by Prof. Schermerhorn of the New Jersey Agricultural Experiment Station, it has taken a leading place both as a canning and a market kind and deservedly so.

The outstanding features of the Rutgers tomato are the large size and solid structure of the fruit, deep globe shape, fine flavor and deep red color all over together with a heavy set of fruit which makes for high yield. It is one of the most prolific varieties.

Although this is a main crop tomato we have selected it for earliness, producing a strain which is only a little later than Scarlet Topper, without losing any of its other fine characters. The vines are strong and sturdy with plenty of leaves to prevent the fruit being scalded by the sun.

N. Y. State Certified Seed of our own growing. See prices on page 33.

Stokesdale—N. Y. Certified Seed

This new variety is living up to its early promise and has become a variety of major importance, especially as a canning crop.

We are pleased to offer N. Y. State Certified seed again this year. This seed was grown on our own farm, and has fully met the strict requirements of the inspectors for N. Y. State certification.

Stokesdale is a medium size deep globe tomato, very solid, of fine quality and very prolific. The fruit is of excellent deep color, coloring well all over. In season it is medium early ripening about with Bonny Best. Because of its good quality and very heavy yield, this tomato has an important place for market, shipping and canning. Grow some this year.

N. Y. State Certified Seed of our own growing. See prices on page 33.

Marglobe Tomato—Blight Resistant

The fruit is large, globe shaped, perfectly smooth, deep red, very solid and firm. This is also a standard variety for green pack, as it grows with very little stem crack and ripens well in storage. The vines are vigorous and healthy and do not blight, remaining green until frost, so the late fruit is as good as the first to ripen.

We have grown this variety on our own farm since it was first released by the U. S. Department of Agriculture a number of years ago and have made careful selections each year to improve the yield, uniformity of color, size and shape of fruit.

N. Y. State Certified Seed of our own growing. See prices on page 33.

TOMATOES continued on next page.

Rutger's Tomatoes

Photo taken in our field of New York State Certified Seed

CUPROCIDE 54-Y

New Yellow Copper Oxide—Equal to Bordeaux for control of blight and leaf spots. Avoids lime injury. Spray your tomato plants in the seed bed and field. See page 48. Circular mailed on request.

John Baer Tomatoes

Part of a cluster of fruit from our seed fields.

John Baer—Improved Strain
The Best Tomato in Its Class

This is the Geneva strain of John Baer tomato and will produce larger fruit and more tons of fine tomatoes to the acre than any strain we have ever seen.

The fruit is unusually large for this variety. It is very smooth and deep red throughout, coloring right up to the stem. The vines are vigorous and healthy and produce heavy crops.

We regard this Improved John Baer as one of the best medium early tomatoes, and can recommend it most highly both for market and canning.

N. Y. State Certified Seed of our own growing. See prices on page 33.

Comet Tomato

N. Y. Certified—For Greenhouse and Trellis Growing

Our stock is used regularly by some of the largest and best growers of greenhouse and trellis tomatoes, where a medium size fruit is wanted. We are pleased to offer **N. Y. State Certified Seed** of this fine strain of **Comet Tomato**. The seed is saved only from the best fruit and has been found superior for both greenhouse use and growing outside on supports. Pkt. 20c; 1/8 oz. 50c; 1/2 oz. \$1.65; oz. \$3.00; 1/4 lb. \$10.00.

Use Starter Solution in Transplanting Tomatoes

Experiments at the New York State Agriculture Experiment Station at Geneva prove that the use of Starter Solutions when transplanting tomatoes not only materially increases the total crop but *increases the tonnage of early fruit*. See "Take Hold" on page 48.

Comet Tomatoes

Note the heavy set of fine fruit.

Small Fruited Tomatoes

Popular to use in pickles, salads and preserves.

Varieties: **Red Cherry, Red Pear, Red Plum, Red Currant, Yellow Cherry, Yellow Pear, Yellow Plum, and Ground Cherry (Husk)**. Price: Pkt. 10c; 1/2 oz. 30c; oz. 50c; 1/4 lb. \$1.50. Any four Pkts. 25c. Any four 1/2 oz. \$1.00.

Bison—Extra Early Red

Vines determinate—fruit well colored but not as smooth as Victor.

BONNY BEST. Harris' Special Strain. (N.Y. Certified Seed) 5 lbs. \$20.00

We know of no finer strain. Grown on our own farm from our own pedigree stock seed. Produces smooth round perfect fruit of finest color.

BREAK O'DAY. (N.Y. Certified Seed)

The fruit is very early, globe shaped, smooth and solid. This tomato is valuable where plants are staked and early fruit of high quality is required.

COMET. Forcing Tomato. (N.Y. Certified Seed.) See prices above

Dwarf Champion

Early, pink, medium size, dwarf stocky plant.

Dwarf Stone

Plants like Dwarf Champion with fruit like Stone.

EARLIANA. Harris' Extra Early Strain. (N.Y. Certified Seed)

Our stock is famous for extremely early, extra smooth fine colored fruit. Other tomatoes under various names are said to be earlier, but few are and these are for the most part very irregular in shape and poor for market.

EARLY DETROIT. The Best Early Pink Tomato

A very fine pink variety with smooth, evenly colored fruit of good size.

Golden Queen

Large, smooth yellow fruit.

GOLDEN GLOBE. (New) Pkt. 15c; 1/4 oz. 25c

Deep orange yellow, true globe. Large thick meated and prolific. See retail catalogue.

HARRIS' EARLY STONE. (N.Y. Certified Seed) 5 lbs. \$18.50

Produces large, solid deep red fruit, superb quality. Early selected strain, ripens nearly as early as Bonny Best and John Baer. Enormous cropper.

ITALIAN RED PEAR. Pomo d'oro a Pero. (N.Y. Certified Seed) . Pkt. 10c

Three to four times as large as ordinary Red Pear. Clusters of 4 to 7 fruit with pleasant distinct flavor. Used largely for Tomato "paste" and canning "Italian Style."

TURNIPS

Weisse Rube (Ger.) *Navone (It.)*
 It requires 1 to 1½ lbs. of seed per acre in drills,
 or 2 to 2½ lbs. broadcast.

**Purple Top White Globe
 Special Strain**

This stock of Purple Top White Globe turnip continues to produce the smoothest, handsomest turnips we have ever seen. The turnips are a snowy white with bright purple tops. It costs no more to grow these fine turnips and their attractive appearance makes them sell much better. See prices below.

**Be sure your Name and Address
 is on the Order Sheet.**

Harris' Purple Top White Globe Turnips

	¼ lb.	1b.	10 lb.
EARLY PURPLE TOP MILAN	\$.30	\$1.00	\$9.00
The earliest purple top turnip, very fine. Flat.			
EARLY WHITE MILAN. The Earliest Turnip	.30	1.00	9.00
Very early, flat white turnip.			
GOLDEN BALL. The Smoothest Yellow Turnip	.30	.85	8.00
Round, smooth yellow. Much the best to grow where a yellow turnip is wanted.			
PURPLE TOP WHITE GLOBE. Special Strain. See above.	.25	.75	7.00
SHOGOIN. The Best Foliage Variety	.25	.80	7.50
The best turnip for greens, very much superior to Seven Top. The turnips are white, flat and of fine quality. The tops are light green of good quality and grow in clusters.			
Snowball	.25	.75	7.00
Pure white, round as a ball; early, with small tops.			

**Kohlrübe (Ger.) RUTA BAGAS or Swede Turnips *Cavolo navone (It.)*
 Macomber—Finest Quality—White Flesh**

This is a ruta бага which should be grown more extensively. It is the finest quality we know, being exceptionally mild and sweet. The roots are nearly round, smooth, white with green tops. The flesh is white and very fine grained. Growers with discriminating customers quickly work up a fine trade with this outstanding variety. See prices below.

	¼ lb.	1b.	10 lb.
MACOMBER	\$.60	\$2.00	\$19.00
IMPROVED LONG ISLAND. Purple-top	.30	.85	8.00
A superior strain of ruta бага. The roots are large globe shape, smooth and without too much neck. The flesh is yellow and of fine quality. Heavy yielder.			
EARLY YELLOW PURPLE TOP. Buck's County Strain	.35	1.10	10.00
Purple top, matures about 2 weeks earlier than L. I. Improved. Roots are uniform, very smooth and somewhat flattened. Flesh light yellow, fine grained and sweet.

VEGETABLE PLANTS and ROOTS

Orders for plants will be entered at any time. The plants will be sent at specific dates if so ordered, otherwise they will be sent when ready or when it is time to set them out.

For those who use vegetable plants in large quantities if ordered before Feb. 15th, we can grow to your order at special prices. Write for quotations on your requirements.

PLEASE NOTE: Our plants are expertly and carefully packed so that they will reach you in good condition, but if they are delayed on the road or for any other reason, they arrive in poor shape, let us know at once and we will replace them. We cannot be responsible for the plants living after they are planted as this depends on how they are planted and the soil and weather conditions over which we have no control.

Except where noted, the plants are sent at the expense of the purchaser. If plants are wanted by parcel post an extra charge is made for postage as follows: To places in the 2nd zone (150 miles) 1c per lb., 3rd zone 2c per lb., 4th zone 4c per lb., 5th zone 6c per lb.

For prices in quantities less than listed here see our retail catalogue.

Cornell Special Pasture Mixture

Formerly called Cornell Pasture Mixture No. 1

This Cornell University formula has proved to be the best for permanent pastures on good land that has been adequately fertilized. See full description of this and other pasture mixtures in our Retail Catalogue. Sow 25 lbs. per acre. **100 lbs. \$25.00. Not Prepaid.**

For other Cornell Mixtures for Pasture and Hay see our Retail Catalogue.

Harris' SUPERFINE Lawn Grass Seed

A mixture composed of only the purest seed of grasses best suited for lawns. The finest all purpose lawn grass. Now contains Wild White Clover. **Superfine Mixture. 10 lbs. \$4.60; 25 lbs. \$10.25; 50 lbs. \$20.00; 100 lbs. \$38.00. Transportation paid.**

Grass Seed For Shady Places

A mixture of the finest varieties for growing in shady spots.

Shady Lawn Mixture. 10 lbs. \$6.50; 25 lbs. \$14.75; 50 lbs. \$28.50; 100 lbs. \$55.00. Transportation paid.

See our Retail Catalogue for complete descriptions of these and other fine lawn grass mixtures.

HARRIS' SELECTED FLOWER SEEDS

Aster, American Branching Azure Blue

Harris-Grown Flower Seeds

Practically all our flower seed is actually grown *for you*, the cut-flower and plant grower of the northern states. Every important variety is either grown on our own farm in New York State, or grown on contract for us—not picked up on the open market.

Don't hesitate to write us,—possibly our experiences can be of help to you. Better yet, come to see us.

To Florists of established credit, and those who furnish us with satisfactory references we allow the following *time payment except on field and grass seed*:

Bills for seeds, plants, etc. shipped after December 1st are due and payable net June 1st.

Bills for goods shipped after June 1st are due net December 1st.

HARRIS' ASTERS—*New Wilt-Resistant Varieties*

You, as a commercial grower cannot afford to gamble unnecessarily. Sow only "Wilt-Resistant Asters" and eliminate the risk of "wilt" or "stem rot."

If you are growing for cut-flowers we particularly recommend the *Harris' New Early Dawn* for extra early, the *New Early Giants* for second early and immense flowers. For mid-season the large fluffy-flowered *Cregos*, *Enchantress Pink*, *Shell Pink*, *Purple*, and *White*. The standard late kinds for cutting are *Peerless Pink*, *American Branching Azure Blue*, *Rose* and *White*. These last are also the best for shipping as they better withstand handling.

For a spring plant trade we find the best sellers are *Peerless Pink*, *Heart of France*, *American Branching White*, *Azure Blue*, *Rose*, and *Purple*. Some trade also demands *Crego Asters* in which case we recommend sowing *Crego Azure Blue*, *Enchantress Pink*, *Shell Pink*, and *White*.

Crego Asters

Ostrich Feather Asters. An unusual range of colors selected from the best of the fluffy or Crego type.

W1402—Shell Pink	Lg.			
W1404—Azure Blue	Pkt.	¼ Oz.	Oz.	
W1405—Purple	\$.25	\$.45	\$1.60
W1403—Deep Rose				
W1401—White				
W1406—Enchantress Pink				
W1400—Variety Mixture15	.40	1.25	

Royal Asters

Same form as American Branching but slightly earlier.

W1301—White	Lg.			
W1303—Rose	Pkt.	¼ Oz.	Oz.	
W1304—Lavender	\$.25	\$.45	\$1.60
W1305—Purple				
W1300—Variety Mixture15	.40	1.25	

Harris' 8-Best Mixture

W1500—Our own special mixture made from equal quantities of the following eight best Wilt-Resistant Asters: New Early Giant Light Blue, New Early Giant Peach Blossom, American Branching Purple, American Branching White, New Enchantress Pink, Peerless Pink, Heart of France, and Deep Rose Crego.

Particularly good for plant trade or garden. Lg. Pkt. 15c; ¼ Oz. 45c; Oz. \$1.50; ¼ Lb. \$4.50.

American Branching Asters

The leading mid-season variety for all purposes.

W1604—Azure Blue	Lg.			
W1606—Crimson	Pkt.	¼ Oz.	Oz.	
W1602—Flesh Pink	\$.25	\$.45	\$1.60
W1607—Peach Blossom				
W1605—Purple				
W1603—Rose				
W1601—White				
W1600—Variety Mixture15	.40	1.25	

New Early Giant Asters

A much earlier, and wilt-resistant strain of the immense California Giant Asters.

W1824—Light Blue	Lg.			
W1823—Peach Blossom	Pkt.	¼ Oz.	Oz.	
W1822—Rose Marie. Bright rose. . .	\$.35	\$.85	\$3.00

Peerless Pink Aster

W1066—This is still the most profitable light pink Aster. Large double flowers on vigorous branching plants. Lg. Pkt. 25c; ¼ Oz. 45c; Oz. \$1.60.

Heart of France Aster

W1078—The most popular "red" Aster and still a favorite for the gardens. There is no other Aster to take its place. Lg. Pkt. 35c; ¼ Oz. 75c; Oz. \$2.50.

ASTERS—Continued

Although the following Asters are not listed as "Wilt-Resistant" they are particularly good growers and should not be troubled by wilt unless grown in badly infected soil.

Harris' Early Dawn Asters

A new class of extra early Asters of our own growing. They bloom so early that, with us, they are not affected by the tarnished plant bug or diseases. We grow them from seed without transplanting.

Better and earlier than Queen of the Market.

W1254—Lavender	Lg.			
W1253—Rose	Pkt. ¼ Oz.	Oz.		
W1251—White			\$.25	\$.45 \$1.60
W1250—Variety Mixture			.15	.40 1.25

All Kinds Mixed

W1000—Choice Mixture of Tall Varieties.

This is an especially made mixture of all taller growing kinds. Lg. Pkt. 15c; ¼ Oz. 30c; Oz. 90c; ¼ Lb. \$2.70.

California Giant Asters

A new strain of remarkable Asters on immense robust plants. The flowers have long twisted petals and are colossal in size.

W1815—Dark Purple	Lg.			
W1812—Deep Rose	Pkt. ¼ Oz.	Oz.		
W1814—Light Blue			\$.25	\$.65 \$2.25
W1813—Peach Blossom				
W1816—Shell Pink				
W1811—White				
W1810—Variety Mixture			.25	.60 2.00

New Daisy Asters

W1830—California Giant Single, Mixed Colors. Immense single flowers with long graceful petals. Plants are vigorous and are very resistant to disease. Lg. Pkt. 15c; ¼ Oz. 20c; Oz. 50c.

Sunshine Asters

W1010—New California Sunshine, Mixed Colors. A tall growing Aster with large single flowers, many with quilled centers. Lg. Pkt. 35c; ¼ Oz. 85c; Oz. \$3.00.

Ageratum

This last summer we tried most all of the different American grown varieties and selected these three as the best.

W2012—Midget Blue. A new very dwarf only 4 to 5 inches tall with small mid-blue flowers. ⅛ Oz. 90c	Lg. Pkt. ¼ Oz.	Oz.		
W2014—Blue Ball. (Improved). Larger plants and larger flowers than Midget Blue. About 6 inches tall.	⅛ Oz.	70c	.35	1.20 4.00
W2015—Swanley Blue. (Tall). Grows 18 to 24 inches tall. Used for cutting.			.15	.20 .50

Alyssum

W2020—Sweet 1 ft.	¼ Oz.	Oz.	¼ Lb.	
W2021—Little Gem 8 in.		.15	.50	1.50

W2274—Flesh Pink				} \$.10 \$.30 .90	
W2276—Lavender					
W2270—Rainbow Mixture		.10	.30		.90
W2275—Giant Hyacinth-flowered, White. Reselected. 18 in. tall.		.20	.50		1.50

Carnation

Giant Double Chabaud

This has always been a good variety to sow for plant sales. Sowed indoors very early and grown cool the plants will find a ready sale, or they may be set out for summer cutting.

W2290—Mixed Colors. An especially good strain of large flowers in many colors.	Lg. Pkt. ¼ Oz.	Oz.		
			\$.25	\$.50 \$1.50

Calendula

For those who have not been getting good blooms during the summer, we recommend sowing later (June 20th to July 1st). They will start flowering the last of August and continue throughout September and October. You will find the flowers comparing favorably with greenhouse grown stock in size and length of stem.

	¼ Oz.	Oz.	¼ Lb.	
W2201—Orange King		.15	.30	\$.90

W2370—Thompson's Magnifica. The best tall in brilliant mixture.			\$.15	.25 .85

Crested Cockscomb (Cristata)

W2380—Mixed Colors. An especially fine mixture of all colors, including pink, orange, yellow and red. Both dark and light foliage.		.15	.50	1.50
--	--	-----	-----	------

Cosmos

Cosmos are frequently used as cut flowers, but more often for spring plant sales. The new Sensation type is preferred for all purposes. The flowers are larger, earlier, and of more substance than the older varieties.

	Lg. Pkt.	¼ Oz.	Oz.	
W2466—Sensation Parity (White)		.15	.25	\$.75
W2467—Sensation Pinkie (Pink)		.15	.25	.75
W2465—Sensation, Mixed Colors. A new mixture of white, pink, and crimson.		.15	.20	.60
W2450—Early Giant-flowered, Mixed Colors.		.10	.15	.30
W2460—Double Crested, Mixed		.25	.50	1.50

Centaurea

Cyanus (Bachelor Button)

W2321—Double White	} ¼ Oz. Oz. ¼ Lb.		
W2322—Double Rose		\$.15	\$.40 \$1.20
W2324—Double Ruby			
W2320—Harris' Color Mixture		.15	.30 .90
W2332—Jubilee Gem (New), Dwarf		.25	.75
W2350—Gymnocarpa, Gray foliage		.15	.45 1.35
W2351—Candidissima, White foli.		.50	1.50

W2325—Double Blue, Florist's Strain. A very fine strain of the tall double, bright blue used by florists for cut-flowers, as well as popular for plant sales. Special low price for 1941. ¼ Oz. 15c; Oz. 30c; ¼ Lb. \$1.00.

Coleus

For the last few years we have been developing a new strain of large-leaved Coleus seed. We now have Coleus seed of our own growing which we are proud to introduce.

W2511—HARRIS' EXTRA FANCY MIXTURE. The leaves are uniformly large and in the brightest color combinations. The plants tend to stay low and not run up to flower until very late. We feel confident this is the best strain of seed you can possibly buy. ¼ Oz. \$1.50; ½ Oz. \$5.00.

W2510—Rainbow Mixture. This formerly was the best strain we could procure and is still considered very good. ¼ Oz. 50c; ½ Oz. \$1.50; Oz. \$5.00.

Dahlia

Dwarf Dahlias are rapidly increasing in popularity both for plant sales and cut-flowers. They are easy to raise from seed.

W2605—VOSSBERG'S HYBRIDS. Here is a new single variety that should appeal to you. Bred by a florist for florists. Contains the colors you want and keeps longer in water. Popular on the New York flower market. 3 ft. tall. ¼ Oz. Oz. Oz. \$.85 \$1.50 \$5.00

W2606—Unwin's Dwarf Hybrids. A very good mixture of many types largely in shades of red and yellow. .30 .50 1.50

W2607—Extra Choice Large-Flowered. Seed gathered from large cactus-flowered varieties. .75 1.25 4.00

Gypsophila

Florist's Selected Strain

This may be flowered in flats in the greenhouse during the late winter and early spring, or outdoors all during the season. Whether sown inside or outdoors it is well to make sowings at about two week intervals to produce a continuous cutting.

W2992—Harris' Covent Garden. The largest flowered and decidedly the most satisfactory for the florist. Do not confuse this with some of the more ordinary and taller strains often listed. Oz. 15c; ¼ Lb. 35c; Lb. \$1.15; 5 Lbs. \$5.40.

Larkspur

The finest Larkspur for outdoor cutting is probably produced by sowing seed outdoors the middle of August. However, sowings may, in some cases, be made as late as October. Plants will usually withstand the winter in this latitude without any mulch.

Giant Imperial

W3248—Los Angeles Improved. Salmon rose
W3254—Blue Bell. Mid blue
W3255—Adorable. Lilac lavender
W3256—White King. Large white
W3258—Blue Spire. Deep violet blue
W3252—Carmine King. Rich, bright carmine

Any of the above colors: Lg. Pkt. 15c; ¼ Oz. 30c; Oz. 90c; ¼ Lb. \$2.25; Lb. \$8.00.

W3250—Variety Mixture. Our own mixture of the above named six best kinds. Lg. Pkt. 15c; ¼ Oz. 25c; Oz. 75c; ¼ Lb. \$2.00.

Gourds

Small Sorts

	¼ Oz.	Oz.

W3671—Affinis, White	\$.15	\$.20	\$.60
W3670—Affinis, Mixed Colors	.15	.20	.50

Marigolds

The Marigold fulfils the florist's desire for a flower which, at a minimum of cost, adapts itself to almost every use. They are being used more extensively each year for colorful spring combination pots by making January and February sowings. Yellow Pygmy, Scarlet Glow, and Harmony are the best for this purpose. For growing under cloth, on a greenhouse bench, or out-of-doors, Yellow Supreme and odorless Burpee Gold are the most popular. We urge you to try Limelight, Golden Glow, and Red and Gold Hybrids. Of course, all varieties sell well to the plant trade.

TALL MARIGOLDS

Carnation-flowered Marigolds

	Lg. Pkt.	¼ Oz.	Oz.
W3426—Yellow Supreme	\$.15	\$.35	\$1.00
W3427—Guinea Gold	.15	.35	1.00

W3424—Golden Supreme Mixture	.15	.25	.75

Double African Marigolds

	Lg. Pkt.	¼ Oz.	Oz.
W3404—Orange All Double	\$.25	\$.50	\$1.75
W3405—Lemon All Double	.25	.50	1.75
W3400—Mixed Colors All Double	.15	.50	1.50
W3407—Sunset Giants, Mixed Colors. Mammoth double flowers	.25	.60	1.75

THE NEWEST MARIGOLDS

Medium Tall and Early Flowering

	Lg. Pkt.	¼ Oz.	Oz.
W3403—Viking. The earliest of all in this group. Medium-sized loose-petaled flowers in profusion. Mixed Colors	\$.15	\$.30	\$1.00
W3412—Limelight. Very early, light yellow Chrysanthemum-flowered.	.15	.30	1.00
W3409—Golden Glow (Odorless). Excellent for cutting	.15	.30	1.00
W3406—Crown O' Gold (Odorless)	.20	.60	
W3428—Early Sunshine. 1939 Bronze Medal. Golden yellow Chrysanthemum-flowered	.15	.30	1.00
W3413—Red and Gold Hybrids. Very popular for both plant sales and cutting	.40	1.50	5.00

EARLY DWARF MARIGOLDS

	Lg. Pkt.	¼ Oz.	Oz.
W3416—Spry. 1941 Silver Medal All-America winner. Very dwarf, compact plants. Double flowers, clear yellow crested center with mahogany guard petals. Pkts. only, 25c each.			
W3417—Scarlet Glow—1941 All-America selection. Brightest red of all dwarf double Marigolds. Pkts. 25c	\$.125	\$4.00	
W3418—Royal Scot All-Double. A new double striped mahogany and gold	\$.15	.50	1.50
W3415—Harmony Hybrids. New mixture of various shades and combinations all of Harmony type.	.25	.50	1.50
W3414—Yellow Pygmy. Small yellow double flowers on very compact dwarf plants. Excellent for early potted plants. Very uniform.	.15	.30	1.00
W3422—Harmony. Still one of the most popular. Golden center with red guard petals	.20	.60	
W3421—Little Giant. (Tagetes signata.) An improved strain. Small single yellow flowers and finely cut foliage	.15	.40	1.25
W3411—Spotlight. Bright yellow quilled center surrounded by mahogany red petals. Very bright	.15	.50	1.50
W3410—Double Dwarf French Mixed, Improved. Of the same earliness and type as Harmony in various shades and combinations. Excellent	.15	.30	1.00

Pansies

New Swiss Giants

W3705—MAGNIFICENT MIXTURE. By actual tests every year on our farm, this strain of mammoth-flowered Pansies has proved to be the best. The color range includes the dark browns and reds as well as the bright shades, and is the choice of Pansy critics. Lg. Pkt. 50c; ⅛ Oz. \$1.10; ¼ Oz. \$2.00; Oz. \$7.00; ¼ Lb. \$24.00.

W3738—BLUE SWISS. A solid blue with darker blue blotch. Lg. Pkt. 45c; ⅛ Oz. 95c; ¼ Oz. \$1.70; Oz. \$6.50.

W3739—RED SWISS. Same type as the Blue, but a mahogany red color. Lg. Pkt. 50c; ⅛ Oz. \$1.10; ¼ Oz. \$2.00; Oz. \$7.50.

W3737—CORONATION GOLD. A new Swiss Giant Pansy of pure yellow with no markings. Very compact plants which withstand summer heat exceptionally well. Lg. Pkt. 50c; ⅛ Oz. \$1.10; ¼ Oz. \$2.00; Oz. \$7.50.

W3735—WHITE SWISS. Larger pure white. White Pansy plants are in great demand. Lg. Pkt. 45c; ⅛ Oz. 95c; ¼ Oz. \$1.70; Oz. \$6.50.

W3760—VIOLA CORNUTA, Mixed Colors. A large-flowered strain of the newer colors. Lg. Pkt. 25c; ¼ Oz. \$1.00.

Harris' Special Mixture

W3700—Here is a new mixture of very large-flowered Pansies, with slightly waved petals and in an unusually bright and pleasing range of colors, including many "pastel" shades. According to our tests they start flowering earlier in the spring and continue all summer. Lg. Pkt. 35c; ⅛ Oz. 50c; ¼ Oz. 90c; Oz. \$3.00; ¼ Lb. \$10.50.

W3703—MAPLE LEAF GIANTS, Mixed Colors. The largest flowers of all Pansies. Blue and yellow shades predominating on long stems. Lg. Pkt. 45c; ⅛ Oz. 90c; ¼ Oz. \$1.60; Oz. \$6.00; ¼ Lb. \$20.00.

W3704—DWARF SWISS, Choice Mixture. More dwarf compact plants with the same immense flowers as the Magnificent Mixture. Lg. Pkt. 45c; ⅛ Oz. 85c; ¼ Oz. \$1.50; Oz. \$5.50; ¼ Lb. \$19.00.

W3702—Engelmann's Giant Mixture. Mammoth flowers in bright, bold colors. Lg. Pkt. 50c; ⅛ Oz. \$1.10; ¼ Oz. \$2.00; Oz. \$7.00.

Harris Grown GIANT PETUNIAS

Giant Ruffled Petunias

A Harris Specialty and A Florists' Favorite

W3802—Paramount Giants, Mixed Colors.

(Harris Grown.) An extra fine strain of our own growing especially selected for florists' use. The immense deep-throated well ruffled flowers are on low-growing compact plants that do not run up tall during the summer. They start flowering when the plants are very small, making them exceptionally good for spring sales. The colors are selected for brightness and include a large percentage of red and white blotched.

500 seeds 60c; 1000 seeds \$1.00; $\frac{1}{4}$ Oz. (about 2500 seeds) \$2.00; $\frac{1}{32}$ Oz. \$3.50; $\frac{1}{16}$ Oz. \$6.00; $\frac{1}{8}$ Oz. \$10.00; $\frac{1}{4}$ Oz. \$18.00.

W3808—Ruffled Salmon Beauty (Harris grown).

The only giant bright salmon-pink. Immense well ruffled flowers with golden throat. An excellent florist's variety. 500 seeds 35c; 1000 seeds 60c; $\frac{1}{4}$ Oz. \$1.35; $\frac{1}{32}$ Oz. \$2.50; $\frac{1}{16}$ Oz. \$4.00.

Giant Waved Petunias

Ideal For Plant Sales

W3809—Royalty. Here is a new Petunia that will make more customers for you. A bed or border of these beautiful big velvety flowers in their varying combinations of deep blue and white will attract everyone's attention. In 3-in. pots, grown cool, they are a "sell-out." 500 seeds 35c; 1000 seeds 50c; $\frac{1}{4}$ Oz. \$1.25; $\frac{1}{32}$ Oz. \$2.00; $\frac{1}{16}$ Oz. \$3.50; $\frac{1}{8}$ Oz. \$6.00; $\frac{1}{4}$ Oz. \$10.00.

W3814—Giant Snowstorm. Very large, waved, pure white flowers on low growing plants. A constant bloomer in the garden and a good seller as potted plants. 500 seeds 30c; 1000 seeds 50c; $\frac{1}{4}$ Oz. \$1.25; $\frac{1}{32}$ Oz. \$2.00; $\frac{1}{16}$ Oz. \$3.50; $\frac{1}{8}$ Oz. \$6.00.

W3816—Harris' Purple Prince. Our own growing, and not to be confused with any other "Purple Prince" offered. This is distinctly different. The largest flowered, deep, velvety violet-blue. Large open throats and waved petals. Very free flowering. 500 seeds 25c; 1000 seeds 40c; $\frac{1}{4}$ Oz. 85c; $\frac{1}{32}$ Oz. \$1.50; $\frac{1}{16}$ Oz. \$2.50; $\frac{1}{8}$ Oz. \$4.00.

Five Favorite Fringed and Ruffled Petunias

Grown for Us by a Leading Petunia Grower

W3803—Florist's Supreme Strain. Large ruffled flowers of the California Giant type in a new array of colors, including the beautiful salmon and pink shades found in no other strain of Giant Petunias, unusually good for florists. 500 seeds 40c; 1000 seeds 75c; $\frac{1}{4}$ Oz. \$1.50; $\frac{1}{32}$ Oz. \$2.50; $\frac{1}{16}$ Oz. \$4.50; $\frac{1}{8}$ Oz. \$8.00.

W3806—Dwarf Ruffled Giant. Mixed colors.

Not our own growing. Very good large ruffled flowers on low growing plants. $\frac{1}{32}$ Oz. \$1.50; $\frac{1}{16}$ Oz. \$2.50; $\frac{1}{8}$ Oz. \$4.50; $\frac{1}{4}$ Oz. \$8.50; $\frac{1}{2}$ Oz. \$16.00.

W3807—Dainty Lady. Dwarf plants with

fringed creamy yellow flowers in abundance. 500 seeds 35c; 1000 seeds 60c; $\frac{1}{4}$ Oz. \$1.35; $\frac{1}{32}$ Oz. \$2.25; $\frac{1}{16}$ Oz. \$4.00.

W3813—Theodosia. We know we have the best strain of this popular bright pink with yellow center. Large and well fringed. 500 seeds 30c; 1000 seeds 50c; $\frac{1}{4}$ Oz. \$1.00; $\frac{1}{32}$ Oz. \$1.75; $\frac{1}{16}$ Oz. \$3.00.

W3812—Martha Washington. A very dwarf

compact plant covered with fringed blush-pink flowers veined wine-red. Very late flowering in some Northern sections. 1000 seeds 35c; $\frac{1}{4}$ Oz. 75c; $\frac{1}{32}$ Oz. \$1.00; $\frac{1}{16}$ Oz. \$1.75.

All-Double Petunias

From our experience these have proved to be the *only 100% All-Double* Petunias. The varieties we are offering are all of the "Victorious" or Dwarf Fringed type

Victorious All-Double

	500	1000	seeds	seeds	$\frac{1}{4}$ Oz.	$\frac{1}{32}$ Oz.
W3790—Mixed Colors	\$1.00	\$1.85	\$6.00	\$11.00

W3794—Amaranth Red	1.25	2.00	6.50	12.50		
W3793—Carmine King (World Beauty). The original all-double pink Petunia and still the best. Very dwarf and compact and true to color. 500 seeds \$1.25; 1000 seeds \$2.00; $\frac{1}{4}$ Oz. (about 5000 seeds) \$6.50.						

Harris' Paramount Giant Petunias flower early on small plants

Harris Grown BEDDING PETUNIAS

Single Low-growing BEDDING PETUNIAS

This is the most popular class of Petunias for outdoor bedding and are the leaders for plant sales in pots and flats.

Petunias being one of our specialties, we make every possible effort to offer only the best strains of the most desirable colors, testing them carefully for growth and color.

Harris Grown Petunias

In order to assure you of better and more dependable Petunias we increased our seed-growing acreage to include the very important four leading colors of low-growing single Petunias. This makes it possible for you to sell plants with full confidence you will be making pleased customers.

W3826—CELESTIAL ROSE. The finest all-purpose bright pink. A more attractive shade and more compact growing than Rose of Heaven. A clear pink without the large white throat of Rosy Morn. This is the most compact and uniform growing strain. Lg. Pkt. 35c; 1/8 Oz. 90c; 1/4 Oz. \$1.50; Oz. \$5.00.

W3827—HEAVENLY BLUE, Improved. This is the light blue so much in demand for plants but generally very variable in color. This year we are finally able to produce a much improved strain. In the field, the color was 100% true clear, light-blue and the plants uniformly low and compact. We sincerely believe this is far superior to any other Heavenly Blue on the market. Lg. Pkt. 40c; 1/8 Oz. 75c; 1/4 Oz. \$1.25; 1/2 Oz. \$2.00; Oz. \$7.00.

W3825—DARK PURPLE. A very much improved stock, more compact growing and a deep velvety dark blue-purple. As low growing as Celestial Rose. Lg. Pkt. 35c; 1/8 Oz. 75c; 1/4 Oz. \$1.25; Oz. \$4.00.

W3821—SNOWBALL. A new white, more uniform in growth and of the same compact habit as Celestial Rose. Most white Bedding Petunias offered are much taller. Lg. Pkt. 35c; 1/8 Oz. 75c; 1/4 Oz. \$1.25; Oz. \$4.00.

W3840—HARRIS' SPECIAL FOUR-COLOR MIXTURE. Here is an unusually fine mixture especially made up for particular buyers. We make this mixture from the same fresh, new-crop seed described above, using carefully balanced proportions of Celestial Rose, Snowball, Dark Purple and Heavenly Blue. Uniform in growth and unequalled for colors. Lg. Pkt. 25c; 1/8 Oz. 50c; 1/4 Oz. 85c; Oz. \$3.00.

Single Bedding Petunias

These varieties are not our own growing, but they are the best stocks we have been able to procure. They are the same good quality we have been selling.

	1/8 Oz.	1/4 Oz.	Oz.

New Cream Star Petunia

A New White Petunia

**More Uniformly Compact and
More Free-Flowering**

Our Own Growing

W3844—CREAM STAR. We consider this the best white bedding Petunia ever introduced. The plants are uniformly compact and do not get "leggy." All summer they are a perfect mound of large creamy-white flowers. All of your customers will repeat on this one. Lg. Pkt. 25c; 1/8 Oz. 50c; 1/4 Oz. 75c; 1/2 Oz. \$1.25.

W3836—HARRIS' BLACK PRINCE. An improved strain of our own growing. A dwarf "Flaming Velvet" similar to "Velvet Ball." The color is the darkest red it is possible to imagine, while the plants are uniformly compact growing. We found it to be one of the best selling Petunias in the spring plant trade. 1000 seeds 25c; 1/8 Oz. 60c; 1/4 Oz. \$1.00; 1/2 Oz. \$1.75.

Other New Petunias

W3841—COCKATOO. A much improved reselected strain of this new attractive blue and white variety. Medium size flowers on slow, compact plants. Irregular white markings on violet-blue ground. 1/8 Oz. 25c; 1/4 Oz. 45c; 1/2 Oz. 75c; 1/2 Oz. \$1.25.

W3822—SALMON SUPREME. The new true salmon bedding Petunia of our own growing. Gold Medal All-American winner for 1938. Very low and compact and a pleasing shade. 1/64 Oz. 40c; 1/8 Oz. 75c; 1/4 Oz. \$1.25; 1/2 Oz. \$2.00.

W3824—TOPAZ ROSE. The deepest pink Bedding Petunia with a golden throat. Taller than the other "Low-Growing Bedding Petunias." A very showy and pleasing color and free bloomer. Lg. Pkt. 25c; 1/8 Oz. 45c; 1/4 Oz. 75c; Oz. \$2.50.

W3843—GLOW (Silver Medal, 1939). Low growing, large flowered, and the brightest light scarlet of all Petunias. 1000 seeds 30c; 1/8 Oz. 60c; 1/4 Oz. \$1.00.

Two New All-America Petunias for 1941

W3846—RADIANCE. The new 1940 All-America winner. Brightest cherry-red with golden throat. Pkts. only, 25c each.

W3796—ALL-DOUBLE BLUE BROCADE. Silver Medal All-America winner for 1941. Giant fringed, rich violet blue, double flowers on low-growing plants. Was 100% in trial last summer. 200 seeds 80c; 500 seeds, \$1.50; 1000 seeds, \$2.50; 1/64 Oz. \$8.00.

"This year, to prove further to myself that your seeds were superior, I planted some of your Paramount Ruffled Giants at the same time with those purchased elsewhere. Yours were up nearly a week sooner than the others and produced 65% to 25% better stand."

Joel Sundell, Jamestown, N. Y.

Snapdragons

For outdoor and cloth house, cutting and plant sales, use the Tall Giant Flowered.

Our Snapdragons have all been chosen from the newest introductions and only the most popular colors are offered.

Tall Giant Flowered Snapdragons (Rust-Resistant)

For every use and from every point of view these are the finest Tall Snapdragons we can find. They are American grown, and fresh seed of high germination. The flowers are large and well placed on stems growing 2 to 2½ feet high. For plant trade, the seed is usually started in early February.

W5051—Pure White.....	Lg.			
W5052—Autumn Glow. Beautiful terra-cotta pink.....	Pkt. ⅛Oz.	¼Oz.	Oz.	
W5053—Bright Rose.....				
W5054—Wallflower Red. Brown and red combinations	\$.25	\$.35	\$.60	\$2.00
W5055—Crimson. Deep red with dark foliage.....				
W5056—Orange.....				
W5057—Canary Yellow.....				
W5050—Variety Mixture. Our own special mixture, using proper amounts of the seven colors. An exceptional mixture for plant trade. Lg. Pkt. 15c; ⅞ Oz. 30c; ¼ Oz. 50c; Oz. \$1.50.				

Half-Tall Snapdragons

W5115—New-Color Mixture. Here is something special in a mixture of Half-Tall (18-24 inches) Snapdragons. It is a mixture we make by using the light and unusual colors. Might be called a "Pastel Mixture." Good for plant trade. Lg. Pkt. 15c; ¼ Oz. 40c; Oz. \$1.25.

Harris'-Grown Colossal Snapdragons

W5030—Mixed Colors. It has taken us several years to develop a strain of giant-flowered Snapdragons we felt sure would be more satisfactory, especially in the North. With us, the flowers are larger, bloom more freely, and were absolutely free of rust. Lg. Pkt. 35c; ⅞ Oz. 50c; ¼ Oz. 85c; Oz. \$3.00.

Salvia

W4600—Harris' Bonfire. With the florist, the name of Harris has become synonymous with superior quality and high germinating Salvia seed. Our own special strain of Bonfire Salvia which we recently introduced has met with increasing popularity. The spikes are larger, longer, and the florets placed more closely together. The growth is as uniform as though it had been sheared. The color is of a brighter shade than any other variety.

The most economical. Due to the unusually high germination, Harris' Bonfire Salvia has proved to be more economical to sow than lower priced varieties.

Lg. Pkt. 25c; ¼ Oz. 95c; Oz. \$3.00; ¼ Lb. \$10.00.

W4601—Splendens. The quality of our regular strain of Splendens Salvia is not to be overlooked where a cheaper variety is demanded. We find it is better than ordinary Splendens Salvia in earliness and growth. Lg. Pkt. 20c; ¼ Oz. 60c; Oz. \$1.85; ¼ Lb. \$6.00.

"Nour Petunias were lovely; in fact, the best I ever had; and helped me complete a very satisfactory season."
A. D. Boylston, Atlanta, Ga.

Sweet Peas

SPENCER OR SUMMER FLOWERING

The wonderful large wavy or "orchid flowered" Sweet Peas for outdoor summer blooming. We have selected the best of the new vigorous growing kinds. There are no better.

W3664—NIEREMBERGIA Hippomanica. One of the newer outstanding bedding plants. Bright lavender-blue flowers. 5 to 6 in. high. Lg. Pkt. 40c; ¾ Oz. \$1.50.

ZINNIAS

Each year we try nearly all of the different kinds and colors of Zinnias in order to be sure to offer you only those we find to be the best.

For out-door cut flowers we urge you to use our Giant "Two-Tone" Zinnias, the color range is ideal. Fantasy Zinnias are also increasing in popularity for cutting.

The most extensive use for Zinnias is in growing plants in "flats" for spring sales. Sow seed in early April. The Giant Flowered are the most popular and there is an increasing demand for separate colors. Pompom Zinnias are next in popularity.

A New Giant Zinnia Mixture

W8160—Giant "Two Tone" Zinnias, Light-Color Mixture. A new race of giant flowers in unusually beautiful color combinations of the pastel shades. Be sure to sow some of these new Zinnias for your plant trade. Lg. Pkt. 15c; ¼ Oz. 50c; Oz. \$1.40; ¼ Lb. \$4.00.

Giant Flowered Zinnias

W8149—Illumination. Bright pink.....	Lg.		
W8154—Canary Bird. Canary yellow.....	Pkt.	¼ Oz.	Oz.

HARRIS' HARDY PERENNIALS—Continued

Delphinium

Our extensive Delphinium plantings insure seed of the best possible strains of both our own growing and from other leading breeders. Only fresh seed of good germination is offered.

W2641—MONARCH STRAIN. Lg. Pkt. ¼ Oz. Oz.
Seed of our own growing combining the best qualities of all the strains we have tried. Our customers say they can't be surpassed for this locality. Bred for exceptional flowers, hardy plants, wiry stems, and longevity. ½ Oz. 90c \$.40 \$1.55 \$5.50

W2640—MORETON HYBRIDS.
This is an excellent strain of our own growing and is much better than the average. .15 .30 1.00

W2642—DOUBLE WHITE. Seed of our own growing picked only from double flowers. Almost 100% true white and vigorous, persistent plants. ½ Oz. \$1.00 .40 1.75 6.00

W2644—BLACKMORE and LANGDON STRAIN. (Originator's Seed.) Of the various English Delphiniums, Blackmore and Langdon's take the lead. Their new crop seed. ½ Oz. \$1.00 .40 1.75 6.00

W2649—LYONDEL HYBRIDS. The best hand-pollinated seed from Dr. Leonian. Pkt. \$1.00 2.50

W2665—PACIFIC HYBRIDS. A new strain which has already proven its worth on the Pacific Coast as the most valuable variety for the cut-flower grower. In California it surpasses all other Delphinium for size, type and color. The flowers are mostly double and semi-double in unusual colors. ½ Oz. \$1.00 .40 1.75 6.00

W2645—BELLADONNA. Light.25 .50 1.50

W2647—LAMARTINE. The best dark blue for cutting.40 1.25 4.00

INSECTICIDES, ETC.

All articles on these two pages are sent at purchaser's expense except where noted. Prices quoted are as of Dec. 1, 1940 and are subject to change without notice and to stocks being unsold.

ARSENATE OF LEAD. Standard poison to use against worms and insects that eat leaves of plants, fruits, etc.

Powder: 1 lb. package 35c; transportation paid. Not paid: 4 lb. bag 80c; 6 bags (24 lbs.) or more at 17c per lb.

"BLACK LEAF 40." Standard nicotine sulphate insecticide. Highly concentrated. Economical.

1 oz. 35c; 5 oz. \$1.00; 1 lb. (bottle) \$2.25; 2 lb. (tin) \$3.25 transportation paid. Not paid: 5 lbs. \$5.85; Subject to change. Write for prices on larger sizes.

BORDEAUX MIXTURE. Standard fungicide for spraying plants and trees.

1 lb. 35c; transportation paid. Not paid: 4 lb. bag 75c; 6 bags (24 lbs.) at 16c per lb. Write for prices on larger quantities.

CALOMEL. Used for control of cabbage maggot. Lb. \$3.50. Transportation paid. Prices subject to change.

CORROSIVE SUBLIMATE. 1/4 lb. \$1.00; lb. \$3.00. Transportation paid. Prices subject to change.

NEW EVERGREEN. One of the most effective non-poisonous insecticides. Contains soap spreader.

1 oz. 35c; 6 oz. \$1.00; 16 oz. \$2.15 transportation paid. Not paid: 1 gal. \$12.20.

FORMALDEHYDE (40 per cent). A valuable disinfectant for destroying germs that cause diseases in plants. Directions on can.

1 lb. cans 40c; 6 cans \$2.15 postpaid; also 100 lb. Carboys (about 12 gal.) and 450 lb. barrels (50 gal.) Write for special price.

"NICO-FUME." Powder Pressure-Fumigant (New). This most effective and economical fumigating material for greenhouses is now burned under pressure in special cans in which it is packed. Directions on label. Ask us about "Hand-Directed" Fumigation.

1/2 lb. cans 45c each; 6 for \$2.40; 12 for \$4.20; 1 lb. cans 75c each; 6 for \$3.75; 12 for \$7.00 transportation paid.

PYROTE. Unexcelled non-poison Pyrethrum-Rotenone spray. No spreader needed.

1 oz. 35c; 5 oz. \$1.00; pint \$2.25; transportation paid. Not paid: 1 gallon \$15.00; 5 gallons \$60.00.

CUPROCID (Red Copper Oxide). A very effective and cheap disinfectant for seed. Especially effective for spinach and beans.

4 oz. 35c; 1 lb. can \$1.00 transportation paid. Not paid: 5 lbs. \$4.00. Write for prices on larger quantities.

CUPROCID 54 Y. New Yellow Copper Oxide Spray. Replaces Bordeaux. No lime injury. Ask for descriptive leaflet.

3 lb. bag \$1.20 transportation paid. Not paid: 5 bags or more at 95c per bag.

SNAROL. Poison Bait for Cut worms, Sow bugs, Slugs, Snails, etc. Rain or sprinkling will not deteriorate.

1 1/2 lb. 35c transportation paid. Not paid: 4 lbs. 85c; 15 lbs. \$3.00; 50 lbs. \$8.00. Write for prices on larger quantities.

SULROTE. This new dust combines Sulphur and Rotenone in a most effective non-poisonous dust, for control of lice and worms on cauliflower, cabbage, etc., Mexican beetles, cucumber beetles, etc.

1 lb. can 45c each transportation paid. 5 lb. bags \$1.25; 25 lbs. at 15c per lb.; purchaser pays transportation. Write for prices on larger quantities.

TOBACCO DUST. Fine Powder. Used extensively for dusting plants and for fumigating greenhouses. 5 pounds will fumigate a house 20 x 100 feet.

2 lbs. 35c transportation paid. Not paid: 10 lbs. 50c; 100 lbs. \$4.00.

WEED KILLER. Effective for killing weeds in ditches, roads, etc. Destroys all vegetation.

1 qt. 70c; 1 gal. \$1.75; 5 gal. \$4.75. Purchaser pays transportation. Also supplied in 30 gal. and 50 gal. drums. Write for prices.

Protect Your Seed Corn From Crows

If you are troubled with crows and other birds pulling up your seed corn, treat it with **STANLEY'S CROW REPELLENT**. We use it on our own farm for corn, melons and cucumbers. Will not harm the seed or clog the planter.

Half pt. can (enough for 1 bu.)... \$.60
Pint can (enough for 2 bu.)... 1.00
Quart can (enough for 4 bu.)... 1.75
Transportation paid.

SEMESAN. We have found this material most reliable to prevent damping off of seedlings. Used either as liquid for treating soil or dust disinfectant for seeds. 1/2 oz. 10c; 2 oz. 35c; 1 lb. \$2.25; 5 lbs. \$10.00; 25 lbs. \$46.00. Purchaser pays transportation.

SEMESAN Bel. For seed potatoes. One pound New Improved Semesan Bel treats 50 to 60 bu. of cut potatoes. For control of Rhizoctonia and seed-born Scab. 2 oz. 25c; 1 lb. \$1.50; 5 lbs. \$6.50; 25 lbs. \$30.00. Purchaser pays transportation.

SEMESAN Jr. A cheap and effective dry dust disinfectant for both field or sweet corn. Prevents corn from rotting in the ground. 2 oz. 15c or 2 for 25c; 1 lb. 75c; 5 lbs. \$3.00. Purchaser pays transportation.

CERESAN. New Improved. Effective dust for control of covered smut on wheat, oats and barley. 1/2 oz. treats 1 bu. of seed. 4 oz. 30c; 1 lb. 75c; 5 lbs. \$3.25. Purchaser pays transportation.

'TWIST-EMS'

New Improved Plant Tie. A simpler, quicker, better method. Practical. Send for free samples.

4 in.—1000, 75c; 5000 at 60c per 1000
6 in.—1000, \$1.10; 5000 at \$1.00 per 1000
8 in.—1000, \$1.25; 5000 at \$1.10 per 1000
16 in.—1000, \$2.00; 5000 at \$1.90 per 1000, transportation paid. Write for prices on larger quantities.

Raffia—Better than String

Used for heavy bundles of plants, for tying plants to stakes, for budding and grafting and many other purposes. Very economical and costs less than string.

Lb. 45c; 5 lbs. \$2.00 transportation paid. Write for prices on large quantities.

Rubber Bands

Finest quality, new rubber amber bands. Used for bunching vegetables. Better than string. Sizes No. 8—1 1/4"; No. 10—1 1/2"; No. 12—1 3/4"; No. 27—1 3/2"; No. 30—2"; No. 31—2 1/2"; No. 32—3". Please order by number.

1 lb. 85c transportation paid. Not paid: 10 lbs. or more at 80c per lb. Prices subject to change without notice. Lowest prices quoted on large lots.

Pot Labels and Garden Stakes

Keep a record of the kind and variety of seeds sown, dates, etc.

POT LABELS.	Plain		Painted	
	100	1000	100	1000
4 in. long.....	\$.25	\$ 1.75	\$.28	\$ 2.15
5 in. long.....	.25	1.95	.28	2.35

Transportation paid.

GARDEN STAKES. These are good, smooth, white wooden labels of best quality. 100 Plain \$1.25; 100 Painted \$1.40. Transportation paid. Not paid: 1000 Plain \$7.00; 1000 Painted \$8.50. Weight 30 lbs. per 1000.

Parchment Paper

Used by large growers everywhere for wrapping celery, etc. Plain, not printed.

Two sizes 8 x 11 in. and 9 x 12 in. 1000 sheets per box. 8 x 11"—1 box \$1.25; 5 boxes or more at \$1.20. (Wt. 7 lbs.). 9 x 12"—1 box \$1.50; 5 boxes or more at \$1.45. (Wt. 8 lbs.). Purchaser pays transportation. Write for price on larger quantities.

"Take-Hold"

Approved Starter Solution

Equal parts Monopotassium Phosphate and Diammonium Phosphate. 100% Soluble. Increases yield of early fruit and total crop. Dissolve 5 lb. to 50 gal. water. Use 1/4 pint per plant either in setter or by hand. 10 lbs. \$1.65; 50 lbs. \$7.50; 100 lbs. \$14.65. Purchaser pays transportation.

PEAT MOSS

PEAT o' MAINE—Finest domestic granulated peat moss. Large Bales, \$3.75 each, 3 or more at \$3.50 each. Purchaser pays transportation.

Use "Fertile Pots" for better, earlier crops!

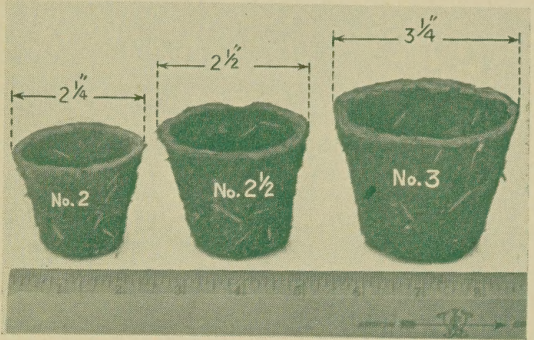

Seedlings set in these pots can be grown and then set in the field, pot and all without checking the plant, even in very dry weather. These pots are made with just the right amount of fertilizer for the best plant growth.

Large growers find these pots not only save time and labor but actually produce earlier fruit and better yields.

Especially valuable for Early Cabbage, Egg Plant, Peppers, Tomatoes, Melons, Squash, etc.

PRICE: Fertile Pots are packed in cartons as follows:
 No. 2 (about 2" dia.) per carton of 500 . . . \$4.75
 No. 2½ (about 2½" dia.) per carton of 500 . . . 5.25
 No. 3 (about 3" dia.) per carton of 335 . . . 4.00

We cannot sell less than single cartons of each size at above prices. Purchaser pays transportation. Weight per carton about 40 lbs. For prices of small quantities see our Retail Catalogue.

New "Open Hed" Sprayer

This new Brown Sprayer represents the first real improvement that has been made in hand sprayers in many years.

It combines many new features with the well known superiority of the Brown sprayers.

Electrically welded seams, double acting pump lock, opening 5 in. in diameter. Double grip rubber pump handle. New swivel nozzle. Write for literature.

No. 4 B. Open Hed
 4 gal. Brass Tank . . . \$8.75
 No. 4 D. Open Hed
 4 gal. Galvanized . . . \$6.75

Transportation paid in U. S. east of the Mississippi River and north of Tenn.

PLANET JR. Wheel Hoes and Seeders

These are the best made and most complete line of wheelhoes and seeders, and are used by commercial growers everywhere. Prices quoted below are f. o. b. Coldwater, N. Y., Cambridge, Mass., or Philadelphia, Pa.

Planet Jr. Double Wheelhoe No. 12	\$11.50
Planet Jr. Double Wheelhoe No. 13	8.75
Planet Jr. Single Wheelhoe No. 17	7.75
Planet Jr. Single Wheelhoe No. 18	5.75
Seeder No. 300. Rear wheel 11¼" diameter . . .	20.00
Seeder No. 300A. Rear wheel 9" diameter . . .	20.00

Write for complete catalogue of Planet Jr. tools.

Lang's Hand Weeder

This is one of the most useful tools for hand weeding made. A boy with one of these weeders can do twice as much work in a day as he could without it.

Price: 25c each; 3 for 65c; 6 for \$1.00 postpaid.

Early Crops Get Highest Prices

In order to grow profitable vine crops, the grower must do everything possible to insure the greatest yield of early fruit at a minimum cost. The use of plant protectors or field forcers has proved a decided advantage in growing these crops.

We have tried a number of other plant protectors side by side with Hotkaps and Hotents in our melon fields but have found none which have equal ability to stand high winds and beating rains. Select the size best suited to your needs.

Germāco Hotkaps

New Method of Plant Protection

beating rains and also from insects, such as the striped beetle. It also prevents the ground from baking around the plant. **This makes for earlier and better fruit.**

PRICES: 250 with special setter and tamper \$3.80 (weight 9 lbs.) 250 without setter and tamper \$3.40; 500 with setter and tamper \$5.75 (weight 17 lbs.) 500 without setter and tamper \$5.35; 1000 Hotkaps without setter and tamper \$10.65 (weight 26 lbs.) 5000—\$10.45 per 1000; 10,000 or more at \$10.25 per 1000. Purchaser pays transportation.

For full details and prices of Hotkaps in smaller quantities see our General Retail Catalogue.

Steel Hotkap Setter and Tamper—\$1.50 (weight 3 lbs.). **Not prepaid.**

Folder giving full description and direction for using Hotkaps will be sent to anyone interested on request. Please write.

Hotents! Made by the same people. Larger area and taller, special paper, wire reinforced. 10½ x 14½ x 8½ or 152½ sq. in. at base. Will stand up under adverse conditions. Some of our customers have found *Hotents* especially valuable for growing melons and use many thousands each year.

PRICE: Carton, 250 (weight 20 lbs.)—\$4.00; 500 (weight 34 lbs.)—\$7.50; 1000—\$13.95; 5000 at \$13.80 per thousand. Setter \$1.95 each (weight 4 lbs.). Purchaser pays transportation. We cannot sell less than 250. Send for descriptive circular.

Super Hotents. The largest practical field forcer we know. Specially made paper reinforced with wire. Size 14" x 18" by 12" high.

PRICE: 500 (weight 60 lbs.) \$10.75; 1000, \$20.25; 5000 at \$20.00 per 1000. Setter \$2.75 each. Purchaser pays transportation.

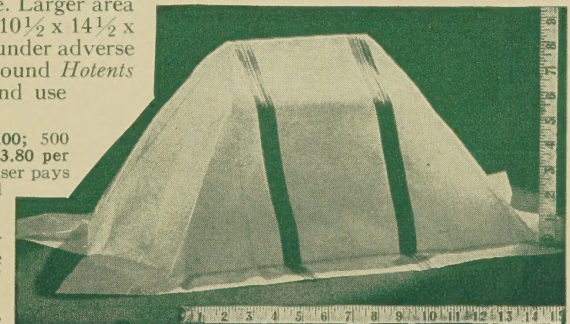

Photo shows size and shape of the Hotent.
